NEW PLAN FOR CHILD TOIL BAN

Senate Subcommittee Asks Constitutional Act

Substitute Draft is Offered to Judiciary Body

Congress Would Have Right to Guard Youths

(EXCLUSIVE DISPATCH) WASHINGTON, Feb. 18.—Senator Shortridge, chairman of the subcommittee of the Judiciary Committee handling the various child-labor resolutions, today reported a substitute resolution to the full committee. The report was made in the following letter to Senator Brandegee, chairman of the Judiciary Committee:

"The subcommittee appointed to consider Senate joint resolution No. 19 (introduced by Mr. Shortridge,) Senate joint resolution No. 19 (introduced by Mr. McCormick,) Senate joint resolution No. 35 (introduced by Mr. Wheeler,) proposing amendments to the Constitution of the United States relative to child labor, and Senate joint resolution No. 16 (introduced by Mr. Lodge,) proposing an amendment relative to the labor of women and children, begs to report:

"As a substitute for these proposed amendments your subcommittee reports in favor of submitting to the several States for ratification the following proposed amendments to the Constitution of the United States:

"Joint resolution proposing an amendment to the Constitution of the United States.

"Resolved, by the Senate and House of Representatives of the United States of America in Congress assembled, two-thirds of each House concurring therein, that the following article is proposed as an amendment to the Constitution of the United States, which when ratified by the Legislatures of three-fourths of the several States, shall be valid to all intents and purposes as a part of the Constitution.

Section 1. The Congress shall have power to prohibit the labor of persons under the age of 18 years and to prescribe the conditions of such labor.

Sec. 2. The power of the several States is unimpaired by this article, except that the operation of State laws shall be suspended to the extent necessary to give effect to legislation enacted by the Congress.

(Signed) "SAMUEL M. SHORTRIDGE."

EXPLOSION KILLS TWELVE

Mary Wants to Make Picture With Charlie

(EXCLUSIVE DISPATCH) NEW YORK, Feb. 18.—According to a conversation with Mary Pickford today she wants to make a picture directed by Charlie Chaplin.

"I would like very much to make a picture with Charlie," said Miss Pickford, "but I have been a little diffident about it, because he is such a good friend of ours. I don't know just how the arrangement would work out, but I do know that he is one of the greatest directors and I would be happy and proud to work with him. Mr. Chaplin has a complete knowledge of life in the London slums and it is my idea to do a story laid in this locality if I do a picture with him."

Miss Pickford is now engaged in assembling and getting "The Warrens of Virginia."

Federal Hold on Vera Cruz Thought Safe

(BY CABLE AND ASSOCIATED PRESS) VERA CRUZ, Feb. 18.—Gen. Eugenio Martinez arrived here last night. Gen. Topeta entered Tierra Blanca yesterday, without resistance, capturing a large amount of rolling stock. The Federal control of the important strategic point is believed to guarantee control of the entire isthmus.

CIVIL WAR HERO WEDS

Eighty-Year-Old Veteran Says He Is Physically Fit

VANCOUVER (Wash.) Feb. 18. Minor A. Foster, a Civil War veteran, 89 years of age, and Mrs. Jane Eshman, 82, both of Portland, were married here by Rev. A. D. Skaggs. Mr. Foster declared he was physically fit, notwithstanding his age, and the fact that he was wounded several times in the Civil War. It was his third marriage. The latest bride was a widow venturing for the fifth time on the matrimonial sea.

Mr. Foster said he was a laborer. Mrs. L. Choate of 541 East Thirty-ninth street, Portland, acted as witness.

Change now to the brand that never changes and you'll never change again.

THE BIRKEL COMPANY

You Can Buy a Genuine **DUO-ART** Reproducing Piano for only... **\$745**

Stroud Duo-Art Uprights \$745 and \$1045

Wheelock Duo-Art Uprights \$845 and \$1200

The Aeolian Duo-Art Grand \$1950

Steck, Weber and Steinway Duo-Art models are priced from \$1100 to \$4750

BECAUSE the Duo-Art is such a wonderful instrument and is most frequently mentioned as being the only reproducing unit with which the Steinway piano may be obtained, some have gained the impression that it is a high-priced instrument. Such is decidedly not the case! The Stroud and Wheelock upright models at \$745 to \$1200 and the Aeolian Grand at \$1950 immediately put it in the same price-class with ordinary "player" pianos. These models embody all the famous exclusive Duo-Art features and are guaranteed both by the Aeolian Co., the makers and this pioneer music house—the exclusive agents.

TRIAL PEACE IN RUHR NEAR END

Neither French Nor Germans
Seek Renewal of Plan

Definite Settlement of Mine
Problem Yet Far Off

All Interests Admit Region
Has Made Progress

BY VINCENT SHEEHAN
BY CARL—EXCLUSIVE DISPATCH
DUESSELDORF, Feb. 18.—The trial period of peace in the Ruhr is nearing its end without a definite settlement of the problem of working the mines either from the German or from the French viewpoint.

The modus vivendi established by the Dueseldorf agreement signed by the French Control Commission and Hugo Stinnes, Fritz Thyssen and other magnates on November 16 has just ended its second month, and both the French and Germans are determined that they will not prolong it when it expires next month.

The following mines have been closed since the early days of this month: Lettingen, Heuserloh, Heinrich Gustav and Ern, the last two owned by Hugo Stinnes. In all

four cases the mines were unable to work enough to keep them alive, as the French regime is incapable of supplying a sufficient number of coal cars. The Friedrich Ernestine mine suffered the same fate late in January.

COUNTER-COMPLAINTS

The industrialists declare that the 16 per cent tax and the incapacity of the regime are two causes sufficient to drive them to ruin if the present arrangement continues. The French assert that the Germans are not keeping their agreement, using every opportunity to break the clauses involving the supply of material to the Allied services.

It is pointed out that France has the right to ask any amount of coal it wants at any time, according to the Dueseldorf agreement. The correspondent is unable to get reliable evidence that the French have abused this privilege, although the German side of the control commission is demanding far more than is reasonable. For example, the mines can supply the French regime with all the coal it wants, while the regime is unable to supply the mines with coal cars enough to carry on normal business.

FRENCH SHORT OF CARS
During January the mines in the Ruhr asked the regime for 554,235 coal cars, but the regime was able to supply only 373,466, although about 50,000 of these were supplied direct from unoccupied Germany by the Berlin government under the famous Mayence accord on November 23, which caused Premier Poincaré's joyous communique, "The passive resistance is ended."

The modus vivendi is not wanting successful operation of the Ruhr Basin from either viewpoint, hence the French reduction of troops and rearrangement of the occupation regime have been abruptly halted since the early days of January. Observers are compelled to admit that there is a great improvement. The streets of Dueseldorf no longer bristle with bayonets through the length of the main shopping streets, and the show windows are intact. Beggars no longer infest the streets. The workmen earn 4 1/2 gold marks (41.25¢) daily, while two months ago they averaged a wage of 15 cents weekly.

The French regime is no longer a pitiable example of inefficiency as previously. Trained German workmen are now operating the passenger trains on the seized lines, where the French formerly were obliged to use raw Polish laborers. As a result, the conditions are improved on the trip from Mayence to Dueseldorf, which formerly took ten and one-half hours, due to the necessity of detouring around the British zone. The trip now takes four and one-half hours. The importance of the British co-operation for troop movement as well as for freight movement and for the circulation of food and supplies is enormous. Despite the undeniable dissatisfaction and pessimism with living conditions in the Ruhr, there is a tendency to return to normal economic life. Another year's progress in the same direction might restore the Ruhr to normalcy. This is admitted even by the Germans. But a vast economic waste would remain just the same. The French still get nothing on the reparations account, as all the coal, steel and paper money and other products obtained now go into the apparently bottomless chasm of reparations.

FLETCHER NAMED TO ITALY POST

President Decides Belgium
Ambassador Best Suited to
Succeed Child

(BY A. P. NIGHT WIRE)
WASHINGTON, Feb. 18.—Henry R. Fletcher of Pennsylvania, now Ambassador to Belgium, has been selected by President Coolidge to be Ambassador to Italy. He will succeed Richard Washburn Child, who recently resigned. The nomination of Mr. Fletcher was sent to the Senate today. The vacancy which will be created at Brussels, by his appointment has been given considerable thought by the President, but so far as has been made known, no one has been selected. The appointment of William Phillips, Undersecretary of State, to the Brussels post, however, has been recommended by several of the President's advisers. The transfer of Mr. Fletcher from Brussels to Rome was endorsed by Senators Pepper and Reed of Pennsylvania, and also recommended by Secretary Hughes.

NONRESIDENTS EVADE HOME CAR LICENSING

(BY A. P. NIGHT WIRE)
SACRAMENTO, Feb. 18.—Oregon and Washington motorists wintering in California are evading the automobile registration fees of their home States by buying California licenses, according to Will H. Marsh, chief of the State Division of Motor Vehicles. "We refuse to issue licenses to motorists who do not live in California, but it is not always easy for us to check up on the visitors, for many of them give California addresses," Marsh said. Some of the Oregonians are so taken by the \$3 registration fee charged in California that they are sending in their money from their home towns in Oregon, with a request that plates be returned by mail. The Oregon Legislature a year ago sought to put a check on the out-of-State registrations by making it necessary for visitors to obtain a permit. Permits issued in Oregon are good for ninety days, but in Washington, where the permit is not used, a California car can escape a license fee, unless the owner happens to be checked.

The Chrysler Six Now On View

The Chrysler Six—the most discussed new car of 1924—is here. The beautiful Chrysler is ready for inspection in our showrooms. Demonstrations which are bound to establish its undoubted supremacy are now being booked. Make your arrangements for an early test of America's first quality light Six. Here are some of the sensational qualities which a Chrysler demonstration will reveal:

Top speed, 70 miles per hour, and over.
Gasoline mileage safely over 18 miles per gallon.
Two to seventy miles per hour "on high," absolutely without vibration.
Ample room for five large adults, with over-all length of only 160 inches.
68 horsepower from a motor of 3-inch bore.
Riding comfort of a two-ton car, with a road weight of 2650 pounds.
Easiest steering you ever experienced.
The perfect safety and control of Chrysler-Lockheed hydraulic four-wheel brakes.

You have never seen or ridden in a car like the Chrysler Six—as you will enthusiastically agree when you have enjoyed a Chrysler demonstration ride.

You Need More IRON IN YOUR BLOOD

Vitalize Your Body, Relieve Your Acid Stomach, Arouse Your Liver and Kidneys with

Coso Volcanic Iron Water

From Coso Hot Springs, Cal.

Chemists will tell you that the same Iron Oxide which gives Coso Water its color, also makes the corpuscles of the blood red, so necessary for vigorous manhood. Science teaches that neither human, goat nor monkey glands will function without rich, red blood and a properly nourished body. The U.S. Government report, on file for inspection in our office, shows Coso Water to be rich in Iron, Calcium and Sulphur, the three essential elements which Nature requires for both plant and animal life. We refer you, by permission, to prominent physicians, also leading business and professional men, here in Los Angeles, who will give you convincing facts regarding the benefits received from Coso Volcanic Iron Water. Price, per single bottle, \$1.25, or case of 16 quart bottles for \$16.00. Costs more than other mineral waters, either foreign or domestic, but you find it worth the difference.

The Prodigal Son Goes Home

Elmer "Gloomy Gus" Henderson, athletic director at the University of Southern California, bid adieu to the Sunny Southland yesterday when the Golden State Limited pulled out on track No. 4 for Oberlin, O., and way points. "Gus" is returning to the old homestead and it is expected that the folks will kill the fatted calf in honor of the occasion. Let's hope that the fond parents will not mistake the coach for said corpulent offspring of bovine. Here is shown Gwyn Wilson, graduate manager of the Trojan varsity saying "good-by and good-luck" to the mentor. He is also cautioning Elmer to handle the luggage with great care because of their fragile contents. (Photo by Don Gillum)

TROJAN MENTOR EN ROUTE EAST

Mr. Henderson, known to the local and Pacific Coast athletic world as Gloomy Gus, left yesterday for Oberlin, O., where the popular U.S.C. mentor is just plain Elmer to the majority of the townpeople. Henderson will stop at the Ohio college town to visit his folks and swap yarns with old cronies there and then will proceed further East in an effort to line-up a decent football team to play the Trojans here this fall.

Coach Henderson is desirous of signing up Syracuse or some other strong eastern eleven for a contest with the local aggregation. He also wants to get well acquainted with Knute Rockne, who is coming here in June to aid in the promotion of the coaching school at U.S.C.

The Trojan mentor will talk today to some of the institutions and will present U.S.C.'s application for admission to the I.C.A.A., which organization tabled the local request last year, thereby incurring the wrath of the Methodists, who claim they were unjustly treated.

TROJANS PLAY BEARS TONIGHT

Rival Teams Evenly Matched for Big Contest

California Tossers Boast Veteran Outfit

Locals Hope for Two Wins Against Invaders

BY BRAVEN DYER

The Golden Bears, winners of the California title last year and runners-up for the Pacific Coast championship, blew into our fair city yesterday, plunked their luggage down in the lobby of the Lanterholm Hotel and then rolled out to take a look at the U. S. C. basketball pavilion where they are to be the foes of the Trojans tonight and tomorrow evening.

Earl Wight, who is fairly well known to local fans, headed a delegation of ten California hoopers who are here with nothing on their minds but the idea of winning both contests from the local tossers. Wight attended Pomona College some years ago. Pomona both football and basketball for the Sageshows. He is small in stature but knows how to handle big men, and is regarded as one of the leading cage mentors in the United States.

TROJANS MUST WIN

Tonight's battle is a "crucial" one for the Trojans. If they lose they are practically out of the running for the State championship, although the winning of tomorrow evening encounter and a division by the Bears and Stanford of their two-game series would result in a triple tie for first honors. However, in order to be safe the locals should win both tilts, a task of no mean dimensions.

Tattered Mitten Tells Story of Champion's Defeat

Miss Edith Cummings, national golf title-holder, showing her glove to her conqueror, Miss Marion Hollins, former United States champion. Miss Cummings emerged victorious after a terrific duel on the Pebble Beach course Sunday by a score of 2 up. It was one of the most sensational matches ever witnessed at Del Monte, but still the vanquished golfer wears a smile. Miss Hollins yesterday entered the finals of the Pebble Beach championship tourney by defeating Mrs. H. G. Hutchings and will meet Miss Mary Browne today.

BASEBALL MEN OUT AT U.S.C.

Trojan Diamond Stars in First Practice Under Sam Crawford's Eye

Wahoo Sam Crawford, former big league baseball star and now coach of the U.S.C. diamond athletes, called his Trojan pupils together yesterday afternoon at the Coliseum for the first practice of the season. The ex-Detroit slugger was greeted by a gang of some thirty young hopefuls, who listened intently to the wise words of Sam, and then went out and knocked a few baseballs out of the lot.

The Trojans have not a few veterans back again this year, not the least of whom are Johnny Riddle, Johnny Hawkins, Gus Chabre, Ed Pos, Al Weilan, Al Telles, Chief Newman and Jones. There are also a host of young men aspiring for unoccupied positions and somebody is going to get left. Hawkins and Gerphelde are still busy with basketball, and several other athletes will also report later.

California, Stanford and St. Mary's are to play the locals this year, each institution having a two-game series to play here. It too like a good season for the college diamond stars.

GOLF TROPHY TO SHARP

Southpaw Links Star Runs Away With Low Gross Prize at Los Angeles Country Club

Over fifty left-handed golfers took part in the qualifying round of what is known as the first Southern California golf championship for southpaws at the Los Angeles Country Club yesterday. Capt. Thomas Sharp from the Coronado Country Club ran away with the low gross trophy when he finished the eighteen-hole test in 77 strokes while the low net medal was carried off by J. L. Bunnagardner of Wheeling, W. Va., with a score of 90-18-72.

The sensation of the day's play was the extraordinary long driving of N. A. Miller, the 18-year-old lad from the San Gabriel Country Club. He shot from the first hole on the south course measured over 288 yards and left him only a half mashie niblick pitch to the flag. At the intricate third hole this lanky but stockily-built youth drove to the edge of the green, a feat only accomplished formerly by such wallowers as Havers and Macdonald Smith, well-known professionals.

Drawings for the first round of match play which starts off at 1:30 today are as follows: Champions—Capt. T. Sharp vs. Frank Ford, W. R. Spence vs. Vernon Goodrich, N. M. Phil vs. J. L. Bunnagardner, E. L. Macdonald vs. D. M. Baker, D. P. O'Keefe vs. A. L. Hester vs. S. Roberts and L. Raby vs. L. J. Merrill.

First round matches will start immediately after the long-driving contest is over, which is scheduled for 12:30, and the second round matches will follow immediately after the champions.

THIRD ROUND OF BOWLING TONIGHT

Another huge crowd is expected to pack into the Angelus Academy tonight when the third round of play for the first division in the Southern California bowling doubles championship is put on. The B. H. Dyer Company gold medals are up for the team winning the title.

To date, Cy Taylor and Johnny Bowen, the 1923 champions, and holders of Dyer company medals, are leading the division, but by a narrow margin. Play in the third round for the second division will be held on Thursday night.

Tonight's Schedule: 1st round—Capt. T. Sharp vs. Frank Ford, W. R. Spence vs. Vernon Goodrich, N. M. Phil vs. J. L. Bunnagardner, E. L. Macdonald vs. D. M. Baker, D. P. O'Keefe vs. A. L. Hester vs. S. Roberts and L. Raby vs. L. J. Merrill.

INTERCLUB GOLF MATCHES ON TODAY

Two interclub golf matches will be staged here today, it was announced last night by George Cline. The Rancho Club golfers will tee off at Wilshire while the Annadale club wielders will mix with the Los Angeles club players on the Beverly course.

INDIANA WINS (BY A. P. NIGHT WIRE) At Ann Arbor—Indiana 23, University of Michigan 22.

BENNY LEONARD IS THERE AS SPEAKER

Benny Leonard may grab another title. The king of the lightweight class may be crowned the king of after-dinner speakers Sunday night at the Plantation Club. Benny was guest of honor and presented a silver trophy to the winners of a dance contest.

Following the presentation, Benny began his oration, and with the assistance of Young Jack O'Leary, kept the throng in an uproar for nearly an hour. More than 800 persons turned out to greet the champ, and numbered among those present were prominent personages of the film and sports world.

BOXING RESULTS

MILWAUKEE, Feb. 18.—Law Tender, Philadelphia, outpointed Pinky Mitchell, Milwaukee, in a ten-round boxing contest here tonight, according to newspaper men at the ringside.

BALTIMORE (Md.), Feb. 18.—Andy Chaney of Baltimore, won the decision over Freddie Jacks of England, in a twelve-round bout here tonight. Chaney weighed 135; Jacks 124.

NEW YORK, Feb. 18.—Jeff Smith, veteran New Jersey boxer, tonight easily won the judges' decision over Jamaica Kid, negro middleweight, at the end of a twelve-round bout. Smith weighed 162½ pounds, Jamaica Kid 171 3/4.

OREGON LEADS CAGEMEN

SAN FRANCISCO, Feb. 18.—In the scramble for basketball honors in the Pacific Coast conference the University of Oregon is leading the northern division and is ahead of all the conference colleges in the percentage column.

Stanford University, the University of California and the University of Southern California are in a triple tie for supremacy in the south.

PLAN A RETURN MATCH

Richard and Kearns to Get Busy Today Negotiating Another Dempsey-Gibbons Encounter

NEW YORK, Feb. 18.—Negotiations for the proposed return world's heavyweight battle in New York about June 1, between Jack Dempsey and Tom Gibbons, may be completed tomorrow, at a conference between Promoter Tex Rickard and Jack Kearns, manager of the titleholder.

Several weeks ago Rickard announced he had arranged the match but Kearns has not yet signed articles, although it is understood he and the promoter are in agreement on terms. Eddie Kane, Gibbons' manager, already has accepted terms on behalf of the St. Paul boxer, who stayed the limit with the champion at Shelby, Mont., last July.

Rickard said today he probably would build an arena somewhere in the metropolitan district which would be available for the Dempsey-Gibbons encounter as well as the prospective return match between Dempsey and Luis Angel Firpo. He is disinclined to use either the Polo Grounds or Yankee Stadium because of seating difficulties on these fields.

Dempsey, according to Kearns, is expected to return to New York next Saturday.

BY WALTER ECKERSALL (EXCLUSIVE DISPATCH) CHICAGO, Feb. 18.—Eddie

CHICAGO CUBS DUE TODAY

The Chicago Cubs baseball outfit will arrive here this morning over the Santa Fe railway from the frozen shores of the Windy City. Headed by their clever manager, Bill Killefer, the entire outfit will soon afterward entrain for Wilmington and then take passage to Catalina Island where the team will go through its regular training stunts preparatory to returning east for the opening of the National League season.

Killefer and his cohorts will be greeted by Harry A. Williams, president of the Pacific Coast

League. Harry will wish them the amenities of the season and swing that weather-stained query, "How do you like our?" Harry is nothing if not courteous.

The Cubs came this time without their short fielder, Charley Hollocher. Charley left the team last year and now years for his back pay. According to advance notices, Killefer believes he has an outside chance to cop the old rag this year, and with this object in view will begin tomorrow putting his Cubs through a course of sprouts twice a day.

MURPHY DRIVES TERRIFIC LAP

Speedster Does 123 Miles Per Hour at Beverly

Equals Record Set Recently by Harlan Fenger

Milton's Supporters Expect Surprise Soon

Jimmy Murphy, the "Wild Irish Rose of the Speedway," came into his own yesterday on the Beverly Speedway when he reeled off a lap at 123 miles per hour and aed himself in with Harlan Fenger on the fast matinee. Murphy had his new "golden bear" out for the first workout on Saturday and was content to do 115 miles an hour in a final burst of speed after working some of the stiffness out of his new Miller motor. Sunday Murphy made some adjustments on the car and yesterday swooped down on the field at practice with an even break on the fastest time ever recorded on any speedway with one of the new 123-cubic-inch motors.

Many of Murphy's friends were alarmed when it was announced that he would drive a new motor in the coming championship race. They feared that it would not be as fast as some of the cars entered that had been thoroughly worked in, but Murphy was not worried about the speed made by Fenger and Anstenberg in practice. He was worried about getting his new car out of the shops.

A DIFFERENT PERSON. As soon as the car was ready for the track, the former champion became a different person, and with three days of work on the gilded chariot, Murphy had it as fast as any 123-inch car has ever been. Milton, who will be one of Murphy's greatest rivals in the race next Sunday, has been out on the course, but has not turned up anything fast to date, as he has been playing safe with his Miller Special, which is an entirely new car. Milton is likely to go out in the qualification trials on Friday and set up a new track record, just as he did at Indianapolis last May.

STORERS

Basket Tossers Will Tangle Up Tomorrow

KU KLUX KLAN SWEATERS CAUSE SCHOOLBOY WALKOUT

(EXCLUSIVE DISPATCH)
 POSTORIA (O.), Feb. 18.—The sixteen letter men of last year's Postoria High School football team today were given the option of paying the intrinsic value of the sweaters furnished by the Ku Klux Klan or returning them, or being suspended until the meeting of the Board of Education, Wednesday night. All walked out.

When it developed that under the ruling of the State High School Athletic Association, nothing more than \$1 may be given to high school athletes, the Klan ordered sweaters for the players.

CHAMPIONS AND CHANCE—THE STORY OF THE WORLD'S GREATEST FIGHT PROMOTER BY TEX RICKARD

(Copyright, 1934, in United States and Great Britain, Cuba, Japan and South America by North American Newspaper Alliance. All rights reserved.)

Chapter XXXII

WHY SHELBY WAS A FIZZLE

I have a letter from the editor of a prominent western newspaper asking me to explain in these columns what, in my opinion, accounted for the famous Shelby fight between Dempsey and Gibbons being a financial failure, while that at Goldfield, also a small place, was a big success. Often I have been asked that.

As a matter of fact there is no similarity between the two events. The failure was no reflection on the town of Shelby. Nobody could have made that fight a financial success under the circumstances.

To begin with the promoters missed the main point in staging any big fight. They did not select the right attraction, one that people throughout the country were eager to see. Evidently the officials of the American Legion as well as the townspeople figured on the drawing ability of Dempsey without regard to his opponent. At that particular moment Gibbons was not in the limelight. To illustrate—the thousands who went to the Carpenter-Dempsey battle were just as eager to see Carpenter as Dempsey. The psychology of the Shelby affair was wrong.

It is not fair to the Shelby people to compare their match with the Gans-Nelson fight at Goldfield. Their fight was to be ten times as good to get an even break. Those who have made fun of the Shelby scrap apparently did not consider the sums. The promoters of the Shelby event offered \$100,000 as against \$50,000 offered at Goldfield. The \$100,000 makes quite a difference. The promoters showed more gameness than judgment.

OTHERWISE ALL RIGHT

In brief, the Shelby people didn't have a good card, the town didn't have enough population and the promoters offered entirely too much money. It did not figure to be a success from the start.

Another thing: We staged the Gans-Nelson fight primarily to attract attention to the town of Goldfield. I thought we had even overstepped the bounds in offering \$50,000. Now these people are asking some money as well as getting publicity. They offered \$100,000. The answer should be obvious.

Always I have thought the criticism of Jack Kearns in insisting on the terms of the contract being a failure was a little unfair. Kearns did not seek this fight. He acted for Dempsey in signing the contract. Naturally, he felt it his duty to act for Dempsey in seeing that all obligations were met. That fight, however, was none of my affair. Perhaps it does not become me to discuss it further.

SYD CHAPLIN'S NAG CROSSES THE RIVER

SYD Chaplin, the clever brother of a clever brother, has just lost his pride and joy. He received a long-distance call this morning from Tijuana with the news that his trainer had been forced to shoot Dot H.

About two years ago, Merrisell, the starter at Tijuana, presented Syd with Dot H., a mare from the famous Ben Brush line. Since that time Dot H. has won quite a number of purses, especially at five furlongs. An unfortunate accident during a try-on caused Dot H. to break her leg, and as a consequence she had to be shot.

ROY HEADS CLUB OF HORSESHOE PITCHERS

STRAFMORE, Feb. 18.—W. E. Roy heads the newly formed Strafmore Horse Shoe Club. C. W. Boulding is secretary-treasurer and C. A. Cook, ground man. Other initial members are: B. Wallace, B. J. Morry, W. V. Bond, W. Koip, M. B. Flint, J. E. Anderson, J. E. Cowan and George R. Lewis.

Grounds have been prepared for night playing. Regular club meetings will be held on Monday and Thursday evenings.

REDLANDS LOSES TWO GOLF MATCHES

(SPECIAL CORRESPONDENCE)
 REDLANDS, Feb. 18.—Redlands golfers returned today from San Diego, where the team of the Country Club here played in two association matches during the week-end. The locals lost both matches, one to the Chula Vista team, 5 to 6, another to the Coronado team by the same score, 5 to 6.

The Riverside Victoria Club team was also in San Diego for the week-end, playing the San Diego Country Club.

WHITE BOX TO REPORT

CHICAGO, Feb. 18.—All battery men and members of the Chicago White Sox today were ordered to report here on February 23 for departure to the training camp at Winterhaven, Fla., the next day.

DELANEY WILL TAKE ON COLIMA

O'Brien Boxes LaBarre in Semiweight Bout Tonight at Vernon Arena

Jimmy Delaney vs. Bert Colima, catchweights.
 Willie O'Brien vs. Harry LaBarre, 125 pounds.
 Sadler Adams vs. Joe Layman, 145 pounds.
 Dick Evans vs. Bert Myers, 145 pounds.
 Tim Randles vs. Toby Montoya, 115 pounds.
 Al Grayson vs. Mickey Rockson, 125 pounds.
 Louis Jordan vs. Billy Elge, 125 pounds.

That's the dish Matchmaker Hardon Wadhams has cooked up for the Vernon arena tonight and it apparently is one well liked by the fans for a big list of early reservations indicates that Jack Doyle will be host to another capacity crowd in his big coliseum at thirty-eight street and Santa Fe avenue.

All the boys completed training yesterday afternoon and declare themselves in great shape for a terrific scrimmage. Delaney is a slight favorite over Colima in the main event because of his recent

me to discuss it further. Another reader of these memoirs has asked me to give my candid opinion as to the toughest fight Jack Dempsey ever had.

"There has been considerable discussion," he says, "as to whether Phipps or Carpenter gave him the most difficulty."

"Only one man can answer this question authoritatively—Jack Dempsey."

The champion answers it for me in his own words:

"Strange as it may seem, Jess Williams hit me the hardest punch I ever received. In the second round of our fight at Toledo, in 1919, it must be remembered that I had knocked him down seven times and he was practically out in the first round. Everybody, including myself, thought the big fellow was gone and that was merely a question of flattening him with a punch or two in the second round."

"In my eagerness to put over a knockout, I rushed at Williams with open eyes. He was a better fighter than he generally gets credit for being. Williams is very active for a big fellow. He boxes with a straight and accurate punch. Nobody knows better than me what terrific power he packs in those blows. I know because I stopped some of them."

In another chapter I will tell of another blow—one that Dempsey will long remember. I must admit that I thought I was in the question of the famous Phipps fight at the Polo Grounds.

Discussion of that fight brings me close to the end of my narrative.

A funny thing about that punch is that Jack Kearns, my manager, and the other seconds in my corner didn't think the punch had hurt me. I don't think anybody else at the ringside saw the effect of that uppercut. I know, though, Williams has big, heavy arms and they feel like logs when they drop on you. He was a better fighter than he generally gets credit for being. Williams is very active for a big fellow. He boxes with a straight and accurate punch. Nobody knows better than me what terrific power he packs in those blows. I know because I stopped some of them."

CYCLE DEMON ARRIVES TODAY

Seymour to Pilot Motorbike at Ascot Sunday

New Englander Out to Annex Walker's Laurels

Appearance of Sig Haugdahl Awaited by Fans

John Seymour, the Sig Haugdahl of the motor-bike racing sport, will arrive in Los Angeles this morning from his home in Springfield, Mass., bringing with him two of the fastest racing motorcycles in the world.

Seymour will make his Pacific Coast debut at Ascot Speedway next Sunday when he will combat Gene Walker, winner of the national championship last Sunday, bowling over Ralph Hepburn, Ray Weinhard and Jim Davis, the mightiest of the two-wheelers who have been opposing Walker's claim to the Ascot championship.

Seymour won three of the 1933 championships and is by far the greatest pilot of the steel steeds that the East has produced.

When it began to look as though Walker would eventually triumph over the rest of the riders here, President Rantal sent out a gasoline S.O.S. for Seymour. Next Sunday Walker and Seymour will mix in two separate events, the Jack Prince Stakes and the Capistrano Handicap.

ENTHUSIASM HIGH
 Enthusiasm among speed fans over the coming to Ascot next Sunday of Sig Haugdahl, world's champion, and his 150-mile-an-hour car is very strong. The ability of the "champion" to drive a comparatively small bowl, is an amazing feat of Haugdahl's performance. During his exhibition drives the speed king's car is in almost a side-wise slide on the turn.

"We are going to give a 'professional' on an afternoon the latter part of the week Haugdahl, as a night 'His daring work and the great beauty and power of his car are, of course, of great interest to numerous drivers, mechanics and workers on racing cars, who cannot be at Ascot next Sunday to see Sig make his daring drive."

"It is to give these persons an opportunity to glimpse the great drive in action that the night bringing to Los Angeles of the fastest racing car in the world with its intrepid pilot will prove the biggest sensation of the local racing sport has ever experienced."

NINE EVENTS SCHEDULED
 Nine events will grace next Sunday's card, Ralph De Palma, whose eight-light-in-a-row was rendered boys by a broken axle, will start the first race on Sunday, will be in practice Wednesday.

Fred Lickelider, who by his wins on Sunday will get first crack at Haugdahl, says he has no complaint to make of the condition of his Duzenberg, and in consequence will let the other boys do the heavy work in the shop between now and Sunday.

MANY JOIN ANGLING CLUB AT RAINBOW

Trent fishing enthusiasts seem to be falling over themselves these days to join the Rainbow Angling Club. In the last week the following have taken out 1934 membership cards: John Bottorini, George Pendleton, G. H. Crowder, Fred S. Schiffman, Alfred Reeves, W. E. Cloggia, H. L. Duckett, Walter A. Roovers, R. H. Dunne, R. C. McWhinney, Joe Welch, Judge York, J. W. Wilkison, Fred L. Miller and W. F. Chandler.

Willie O'Brien will have his work cut out for him in the semiweight bout with Harry LaBarre, who reports from the Middle West are to be taken seriously. LaBarre has hung up a string of nineteen straight knockouts to his credit, although the class of boys has been something of a mystery. O'Brien was a tough, willing boy when he was fighting here last summer and while not a champion is not far from any of the junior lightweight.

Salter Ashmore and Joe Layman in the special event should be a exciting mill, both are heavy hitters and the wisemen of the game are predicting something less than four rounds as the limit for this bout. The preliminaries should make the card one of the best in recent months at the Doyle punch-parlor.

The preliminaries should make the card one of the best in recent months at the Doyle punch-parlor.

Willie O'Brien will have his work cut out for him in the semiweight bout with Harry LaBarre, who reports from the Middle West are to be taken seriously. LaBarre has hung up a string of nineteen straight knockouts to his credit, although the class of boys has been something of a mystery. O'Brien was a tough, willing boy when he was fighting here last summer and while not a champion is not far from any of the junior lightweight.

Salter Ashmore and Joe Layman in the special event should be a exciting mill, both are heavy hitters and the wisemen of the game are predicting something less than four rounds as the limit for this bout. The preliminaries should make the card one of the best in recent months at the Doyle punch-parlor.

ONE DOLLAR—EXTRA PANTS—ONE DOLLAR

FUNERAL OF NORMAN BOECKEL TOMORROW

The funeral of Norman D. Boeckel, star third baseman of the Boston National League baseball club, who died Saturday night as the result of injuries received in an automobile crash the day before, will be held from the chapel of Ivy H. Overholser, 854 South Hill street, tomorrow afternoon at 2:30 o'clock.

The Westlake Masonic Lodge will have charge of the services. Interment will be at the Inglewood Cemetery. Mr. and Mrs. Samuel Boeckel, the dead man's father and mother, his sister, Mrs. Isabelle Dohs; his aunt, Mrs. A. L. Russell, and his uncle, Mr. L. M. Dohs, were with him when he passed away at La Jolla.

Harry A. Williams, president of the Pacific Coast League, yesterday ordered a floral piece to be sent to the funeral. The Los Angeles baseball club also ordered flowers. Boeckel's team-mates in the East wired an order for a floral tribute as did also John Heydler, president of the National League.

Many Rainbow members during the pleasant weather spell have played to the close and exact limits. Recent fishing parties included B. S. Hunter, G. L. Shival, S. P. Kramer, R. C. Merzmann, Guy Holman, R. S. Dunne, R. C. McWhinney, Joe Welch, Judge York, J. W. Wilkison, Fred L. Miller and W. F. Chandler.

Willie O'Brien will have his work cut out for him in the semiweight bout with Harry LaBarre, who reports from the Middle West are to be taken seriously. LaBarre has hung up a string of nineteen straight knockouts to his credit, although the class of boys has been something of a mystery. HISTORY AIDED BY MONUMENT

Records to be Preserved by
El Morro Landmark

Names Inscribed by Early
Spanish Governors

Spot Expected to be Mecca
for Tourists

(EXCLUSIVE DISPATCH)
WASHINGTON, Feb. 18.—El
Morro National Monument, in
western central New Mexico, con-
tains an enormous varicolored
sandstone rock, rising about 200
feet out of a lava-strewn valley,
and eroded in such fantastic forms
as to give it the appearance of a
great castle. On its smooth faces
are the inscriptions of five of the
early Spanish governors of New
Mexico, as well as of many intrepid
padres and soldiers who were
among the first Europeans to visit
this part of the world.

Lying, as it did, on the first high-
way in New Mexico, the Zuni-
Accoma trail, this rock sheltered
as a true fortress many parties
whose course took them this way.
The shape of the giant monolith is
such that an expedition of soldiers
could find protection within the
cave on the south side, in which
was located the water so necessary
to the traveler in those days. Here,
with a few out guards on the one
exposed side, no successful surprise
attack could have been made by
hostile Indians.

CAVES VISIT RECORD
The earliest inscription on the
rock is that of Don Juan de Onate,
Governor and colonizer of New
Mexico, and founder of the city
of Santa Fe, who in 1598 on his re-
turn trip to the head of the Gulf
of California passed by El Morro
and carved a record of his visit.
The inscription of Gov. Manuel de
Silva Nieto, who succeeded Onate,
and who took the first missionaries
to Hawaii, where a mission was
established, reads: "I am the
Captain-General of the province
of New Mexico for the King, our
Lord. Passed by here on return
from the town of Zuni on the
24th of July of the year 1629, and
he put them in peace upon their
petition, asking him for favor as
vassals of His Majesty, and anew
they gave their obedience, all of
which he did with clemency, zeal
and prudence, as such most Chris-
tian (not plain here) most extraor-
dinary and gallant soldier of un-
ending and praised memory."

AVENGE FATHER'S DEATH
"They passed on the 23rd of
March, of 1632 year, to the aveng-
ing of the death of Father Letra-
do,"—Lujan, Lujan, who signed
this inscription, had reference to
his trip with other soldiers from
the garrison of Santa Fe to Ha-
wiku, where the padre was mur-
dered by Zuni Indians, who captured
him February 22, 1632, just 100
years before George Washington
was born.

The De Vargas inscription of

1692 is of historical importance.
Translated, it reads: "Here was the
Gen. Don Diego de Vargas, who
conquered for our Holy Faith and
Royal Crown all of New Mexico
at his own expense, year 1692."
De Vargas reconquered the Pueblo
Indians after their bloody rebel-
lion in 1680, and succeeded in
bringing many colonists from Spain
to take up homes in this country.
He lies buried under the altar of
the parish church in Santa Fe.
Lieut. J. H. Simpson, afterward
Gen. Simpson, accompanied by the
artist, R. H. Kern, were the first
Americans to see these inscriptions
and bring them to the attention
of the public. They visited El Morro
and copied the inscriptions in 1848,
leaving a record of their own visit
on the rock.

RUINS OF HOMES
The last Spanish inscription, of
which there are more than fifty,
was dated 1774. Thus for 163 years
El Morro was a regular camping
place for parties whose business it
was to maintain Spanish rule over
the Pueblo Indians of this sec-
tion. Carving of names by present
visitors is strictly prohibited, with
a heavy fine and imprisonment pro-
vided by law for violations, in order
that the records of the most fa-
mous stone autograph album in the
world may be preserved. The mon-
ument contains 240 acres, and was
first set aside in 1906. On the top
of the rock there are some ruins
of ancient dwellings which can be
reached by trail.

The monument is reached from
Gallup, N. M., on the Santa Fe
Railroad and National Old Trails
road. Westbound motorists, how-
ever, may leave the highway at
Grants and follow a new road,
which goes through San Rafael,
one of the largest strictly Spanish
towns in the State, then skirts the
foothills of the Zuni Mountains and
passes Agua Fria draw. From there
on the road is through a grove of
pines, bordered on the left hand
by a great rough lava bed, rising
to mountains in places and falling
into dark crevices and canyons
in others. It is fifty-five miles
from Grants to El Morro,
thence ten miles to Ramah, where
the custodian of the monument,
Evan Z. Voght, resides. From
Ramah to the famous pueblo of
Zuni it is twenty-five miles. This
makes an inviting detour for tour-
ists, who may thus leave the Old
Trails road between Gallup and the
Zuni Mountains and see two
places of prime interest as well as
the attractive country along the
Zuni Mountains.

THREE PHILIPPINE SLAYERS SURRENDER

(BY CABLE AND ASSOCIATED PRESS)
MANILA, Feb. 18.—Datu Din
and twelve other Moro followers
of Datu Santiago, whose band
murdered three teachers and
seven constabulary soldiers in
Lanao Province last October,
have surrendered to Philippine
authorities, according to a message
received today at constabulary
headquarters here. Datu Santiago
still is in hiding in the mountains.

Conner.

FALLING OFF IN VALUE OF LIVE STOCK

Arizona Has 1,092,000
Head of Range Cattle; Set
Worth at \$31,599,000

(EXCLUSIVE DISPATCH)
PHOENIX, Feb. 18.—According
to estimate made by the United
States Bureau of Agricultural
Economics, Arizona range cattle
number 1,092,000 head, with virtu-
ally no change from the figures of
a year before. However, the value
has decreased from \$34,589,000 to
\$31,599,000. Sheep also show little
change in number, estimated at
1,155,000, but their value had de-
creased from \$8,040,000 to \$7,576,
000. Total shipments of cattle from
Arizona to outside points for the
past year aggregated 218,517 head,
with yearling steers as the major
item and calves second. Slaughtering
within the State consumed
85,000 head. Dairy cattle num-
bered 46,000 head, about the same
as the year before. Of the ship-
ments, 138,467 went to California
points. Colorado received 28,772
and New Mexico, 28,641.

Under terms of a joint resolu-
tion, pushed through Congress by
Representative Carl Hayden of Ari-
zona, about 8500 head of cattle
given across the Mexican line for
pasturage during the dry season
may be returned to Arizona with-
out payment of duty, this conces-
sion to be available during 1934.
The permit applies also to off-
spring.

SOFT-DRINK PARLORS WIN POINT IN FIGHT

PLACES CLOSED IN CHICAGO
CLEAN-UP CAMPAIGN
MAY REOPEN

(EXCLUSIVE DISPATCH)
CHICAGO, Feb. 18.—Reopening
of the 2000 and more "soft-drink"
parlors, closed in Mayor Dever's
recent clean-up campaign, was
made possible today by a ruling
by Judge Walker in Municipal
Court that the city has no power
to license the "soft-drink" estab-
lishments. The decision was in the
case of the city against Jules Pe-
tron, in an effort to compel him
to pay a license fee to the city.
City attorneys who stated that
an attempt might be made to ob-
tain a higher court ruling on the
case, admitted that if these courts
sustain the opinion of Judge
Walker, the city would be without
control over the thousands of soft-
drink parlors and coffee shops that
have been opened since the in-
auguration of prohibition other
than the usual police supervision.
Business of hatching and sell-
ing large numbers of baby chicks
has been conducted in China and
Egypt for more than 2000 years.

PASSENGERS OF WRECKED SHIP LANDED

Captain Believes Columbia
Can be Floated if Cargo is
Jettisoned

(BY A. P. NIGHT WIRE)
MARSHFIELD (Or.) Feb. 18.—
The little steamer *Columbia* landed
here late today with the last of
the crew from the steamer *Colum-
bia*, wrecked yesterday on Coos
Bay jetty. The *Columbia* had
brought off from the *Columbia* in
breaches buoy over a line more
than 200 yards long, thirty
passengers, including two women,
and sixty-five of the officers and crew
without loss of a life or injury.
Capt. Peterson, master of the
Columbia, said he thought the
vessel can be floated after her
cargo is jettisoned. He said the
Columbia struck an obstruction in
the channel while coming in yester-
day which caused a momentary
stoppage of her machinery. Be-
fore she could get under way she
was swept on the jetty by the
swells, the captain said.
A government inquiry into the
wreck will be held, it is said.

GOVERNMENT LOSES FIGHT FOR PROPERTY

(BY A. P. NIGHT WIRE)
WASHINGTON, Feb. 18.—A
tract of land three and a half miles
wide and thirty miles long on the
western boundary of the Moraga
grant in New Mexico held by the
government since 1848 is not the
property of the United States, the
Supreme Court decided today. The
State Investment Company and
Edward B. Wheeler claimed the
land and their contention was sus-
tained.

WILMINGTON

the Portal of Southland Commerce

THE stage is set at *Wilmington* for an era of development such as no other city in the world has ever enjoyed. This is a fact—not a fancy—here are the indicative points.

In 1840, New York city had a population of 312,000. Today, Los Angeles has a population more than three times that of New York in 1840, to attract commerce to the port of *Wilmington*.

The opening of the Erie Canal was the causation of New York's commercial, population and wealth supremacy of the Atlantic; the opening of the Panama Canal is the causation of the supremacy of the port at *Wilmington* on the Pacific.

The development of New York was caused largely by trade with Europe which had a population varying from 160 to 330 millions; the development of *Wilmington* is being caused largely by one third of the population of the globe—one billion people—the present population of the Pacific area of the world.

The port of *Wilmington* is supreme in transportation as it is the nearest United States port to South Asia, Australia and South America by ship, and to two-thirds of the United States, by rail. It is the nearest Pacific port to the eastern

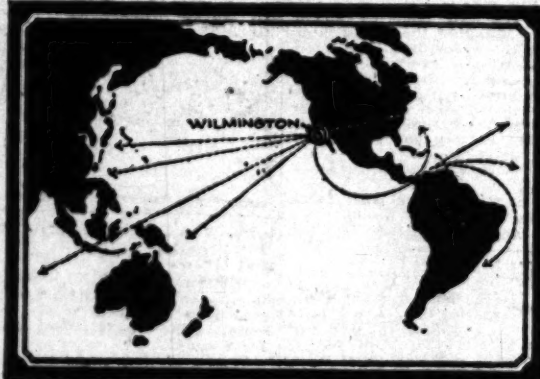

terminal of the Union Pacific, Santa Fe, and Southern Pacific railroads.

The Nations about the Pacific are new industrially. New countries import manufactured products. The overseas commerce of Los Angeles must pass thru *Wilmington*. With an abundance of raw materials, and a rapidly increasing population, a great industrial acceleration at *Wilmington* is certain. Eighty-five per cent of the best rubber of the world; practically the world's supply of tin; the tea of the world; the best hemp; the principal supply of jute; and about ninety-seven per cent of world's supply of copra is developed relative to the Pacific. As these products are developed in South

Asia, *Wilmington* is the nearest United States port thereto and enjoys, consequently, economics superior to that of any other United States port.

The two greatest wool producing regions of the earth are Australia and South America, and as *Wilmington* is the nearest port thereto. Its economical and commercially strategic position for wool fabrications is unquestionable.

Consular reports indicate that steel is the principal commodity of commercial exchange, to the principal ports of Asia. The coming of the fifteen million dollar steel plant of the Pacific Steel Co. assures the steel export supremacy of *Wilmington*.

Cheap fuel, cheap power, and efficient labor are the chief factors entering into economical manufacturing. The natural gas, and the numerous oil wells in the environs provide unlimited cheap fuel; the harnessing of the Sierras provide enormous quantities of electrical energy; and the cool invigorating climate promotes the efficiency of labor. Therefore, the basic economics of manufacturing are present in Wilmington.

To those interested in establishing a manufacturing business on the West Coast, Wilmington offers more advantageous opportunities than any other city in the world. We welcome you to come and share these with us.

DEATH CAST IS PAWN OF FATE

Missing Mask of Napoleon
Sees Strange Lands

Runs Gamut of Owners to
Come to Chicago

Semblance of Corsican is
Gift to Society

(EXCLUSIVE DISPATCH)
CHICAGO, Feb. 18.—The death mask of Napoleon—for many years known as the missing fifth mask—today was presented to the Chicago Historical Society by Joy Morton, who told at the same time the remarkable history of the relic.

A buccannering doctor, Francois Antomarchi, had five masks made at the time of Napoleon's death in 1821, reserving the fifth for himself. Two are now in the possession of the Louvre, one in the British Museum and the other is owned by Lawrence Hutton.

The doctor a few years later made a trip to Mexico, taking the mask with him and leaving it at the home of a friend while making explorations in the interior where he became ill and died. The box, containing the mask and other effects, lay in the home of the friend, unopened, for many years, but later was given to an American who married a Mexican girl.

This American presented the mask in 1892 to Capt. G. H. Howard, a son of Gen. O. O. Howard, who died in the Philippines as a colonel in 1894. The mask since that time has been in the possession of his widow, a daughter of J. M. Woolworth, an attorney of Omaha, Neb.

ALAMEDA NAVAL BASE

(BY A. P. NIGHT WIRE)
WASHINGTON, Feb. 18.—In his concluding testimony of the Alameda naval base, Rear-Admiral McKean, commandant of the Mare Island navy yard, told the House Naval Committee today it might be necessary to dredge out as far as three-quarters of a mile in some places from the proposed site in order to obtain a forty-foot channel. The water at the northwest corner of the site, he said, was twenty-eight feet deep with sixteen feet in the center, and sixteen feet in the southwest corner.

SUN-MAID'S HEAD CALLS ON COOLIDGE

Ralph P. Merritt Takes Up
Southland Problems With
President

(EXCLUSIVE DISPATCH)
WASHINGTON, Feb. 18.—Ralph P. Merritt of California, president of the Sun-Maid Raisin Growers' Association of California, was a visitor at the White House today and discussed the problems of California producers with the President.

Mr. Merritt presented to the President the breakdown in the marketing machinery affecting the producers of fruits and grapes, and the difficulties of transportation. The constructive plans for the solution of these problems, which have been developed by the producers themselves, have been presented to various departments of the government having jurisdiction over each of them, and marked progress has been made along each line.

The President expressed himself as being deeply interested in the questions confronting the farmer and anxious to give every possible assistance which can properly be given through governmental agencies in the solution of these vital questions. That the difficulties of the producers of perishables in California are being solved by the producers themselves in co-operation with the various agencies of business through consultation and support of the governmental departments was highly commended by the President.

CLEAR MYSTERY OF TWO MISSING MEN

ONE WAS AMNESIA VICTIM
AND OTHER'S BODY IS
FOUND IN WOODS

(BY A. P. NIGHT WIRE)
TACOMA (Wash.) Feb. 18.—Two mysteries involving missing men that have demanded much attention from police officers have been cleared up here within the last twenty-four hours.

Ray Arthur D. DeJacoby, formerly pastor of the Roosevelt Heights Christian Church, was located yesterday in San Francisco, according to information reaching police and his family here. Mr. DeJacoby's wife and parents have gone to San Francisco following advice that the minister apparently is suffering from amnesia. He had been mourned as dead by his wife for two weeks since the boat in which he had gone fishing was found stranded on the shores of Puget Sound.

The other mystery cleared up was that of Washington Morris, a well-to-do resident of Buckley, who disappeared last June shortly before he was to have been married to a school teacher here. His body was found in the woods by two hunters. There were no marks of violence discovered and officers believe that he died a natural death while walking in the woods.

MRS. WILLEBRANDT ON ENFORCEMENT OF LAW

TELLS CONFERENCE NO PARTY
CAN HOPE TO CORNER
ALL THE CROOKS

(BY A. P. NIGHT WIRE)
CHICAGO, Feb. 18.—Neither political party has any corner on crooks, Mrs. Mabel Walker Willebrandt, Assistant Attorney-General of the United States, declared here today in an address before the Illinois Citizenship Conference.

"Any attempt by either party to 'corner the market' in that regard is bound to result in public scandal and political disaster." As far as law enforcement goes, Republicans and Democrats must pull in double harness, she said.

Declaring a conspiracy against the law was afoot, Fred B. Smith, secretary of the Committee of One Thousand said: "We are dealing with men who don't stop short of bribery, assassination and murder. As a result, thirty-seven of Mr. Hayner's field agents are dead, and almost 700 maimed."

MINERS' WAGE SCALE RENEWAL APPROVED

PACT IS COMPROMISE FOR
FOUR-YEAR CONTRACT
DEMAND

(BY A. P. NIGHT WIRE)
JACKSONVILLE (Fla.) Feb. 18.—A renewal of the present biennial miners' wage scale for a term of three years was approved unanimously by the subcommittee of miners and operators of the Central Competitive Field here late today.

It is a compromise of the miners' demand for a four-year contract and the operators' offer of a renewal for the customary one year. Tomorrow the report will be considered by the miners' policy committee and then referred for approval to the entire joint conference of miners and operators. Adjournment will come, it is believed, tomorrow afternoon.

COOLIDGE DELEGATES WILL BE SELECTED

TWO CONFERENCES IN NORTH
WILL CHOOSE PRIMARY
REPRESENTATIVES

(BY A. P. NIGHT WIRE)
SAN FRANCISCO, Feb. 18.—Two conferences to select Coolidge Republican delegates will be conducted in San Francisco this week, one in Oakland, and one in King City, it was announced today.

The Sixth Congressional District Republicans will meet in Oakland next Wednesday evening. Members of the Fourth and Fifth District clubs will meet Wednesday and Thursday and the Eighth District will meet next Saturday in the auditorium at King City. Delegates and alternates for the May primaries will be appointed at the meetings.

San Diego Welcomes

Arrange today to take this delightful trip down the coast to a delightful city.

Come prepared to spend a week, a month or the entire winter. There's much to do in San Diego all the time. Of importance, you will find splendid, reasonably priced accommodations in a hundred hotels and a like number of apartments. Rentals for furnished bungalows, etc., are surprisingly moderate.

Each day will be one of joyful anticipation, sparkling, exhilarating air will lure you out to Point Loma, the missions, beautiful beaches, each afternoon you may hear a concert in the pipe organ on the mountains, and in the evening of the many pleasant and interesting things San Diego is the starting point.

You can come by Santa Fe Railway, by Automobile, Los Angeles Steamship Company, or by automobile highway skirting the ocean for 70 miles, and you'll find it a joy.

If you cannot start today, send the coupon for the story of

A Reward

Awaits you in prettier teeth
when you combat the film

Here is a test which brings to millions new beauty and charm. The test is delightful, the result a revelation.

The benefits are whiter, cleaner, safer teeth. You will never go without them when you learn how much they mean. Ask us now for this new way of teeth cleaning.

That cloud is film

Teeth are clouded by a film—that viscous film you feel. In old-way brushing, much of it clings and stays.

Soon that film discolors, then forms dingy coats. That is how teeth lose luster.

Film also holds food substances which ferment and form acid.

Protect the Enamel
Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film comb that which contains harsh grit.

It holds the acid in contact with the teeth to cause decay. Gums breed by millions in it. They with tartar, are the chief cause of pyorrhea.

Nearly all people, under old methods, suffered some film-caused trouble.

Now we fight film

Now you can fight that film. Dental science has discovered two effective methods. One disintegrates the film at all stages of formation. One removes it without harmful scouring.

These methods were proved by many careful tests. A new-type tooth paste has been created to apply them daily. The name is Pepsodent.

Dentists everywhere have urged it, until careful people of some 30 nations are employing it today.

Other new factors

Nature's great tooth protectors lie in saliva. One digests starch deposits on teeth, one neutralizes acids which attack the teeth.

REALTY MEN AT HANLON PARLEY

Farm Land Confers Also Visit Plantations

Pleas Unanimous for Dam in Colorado River

Mexican Rights Protection Strongly Stressed

(EXCLUSIVE DISPATCH)

EL CENTRO, Feb. 18.—Realty men attending the farm lands conference of the State Real Estate Association yesterday inspected the diversion and protection works of Imperial Irrigation district at Hanlon Hearing, obtained a close view of the vast cotton plantations in Lower California and returned here with a more comprehensive idea of the magnitude of the Imperial Valley's irrigation system and resources. They also learned of the valley's needs.

Special cars attached to the regular train were provided for the excursion by the California Railway, and General Manager Burdick had personal charge. The visitors were taken to the headquarters of the irrigation district at the hearing, where Chief Engineer Ray S. Carberry and Superintendent F. E. Higley provided lunch with the compliments of the district.

MANY SPEAK

Brief addresses were made by Everett A. White, vice-president of the State Real Estate Association, Ray S. Carberry, president of the El Centro Realty Board, Edwin T. Keeler, State Real Estate Commissioner, Frederick Paulkner, manager of the California Approved Land Settlement Association, C. C. C. Tatum, Los Angeles Real Estate man, William E. Harren, field secretary of National Association of Real Estate Boards, George Herick Davis, Imperial County Assemblyman, Ira Aten, chairman of the Imperial Irrigation district, Ray S. Carberry, H. Clark, president of the California Chamber of Commerce and manager of the Colorado River Land Company, G. Burdick, general manager Imperial-California Railways.

At the site of the Clark Dam, named for C. E. Clark, former engineer of the irrigation district, Engineer Carberry pointed out to the visiting realty men how the Colorado River broke through in 1905 and forced the dam. The dam was stopped through the co-operation of H. H. Hartman, President Roosevelt, and the dam was built at the enormous cost of seven lives while the work was being done, and the dam was built as an argument in favor of the construction of the Boulder Canyon Dam or a similar dam which would keep regular the flow of the Colorado River and conserve the water for the irrigation of lands in the Southwest.

Chairman Aten also appealed to the visitors to use their influence with Congressmen and government officials to bring home to the legislators the need of action in favor of a dam in the Colorado River.

At the same time, Paulkner and other speakers urged the necessity of recognizing the rights of Mexico to its share in the waters of the Colorado River and suggested that in the final settlement of the plan of the river's development Mexico's rights be protected.

CLARK ENCOURAGES

H. H. Clark told the realty men that the Colorado River Land Company was equally interested in the development of the Colorado River with the land owners on the Colorado side of the line and informed the visitors that his company was among the first to investigate the feasibility of the proposed dam and encourage its construction.

With the excursion the conference, which was the third of the State Association, closed, and the 100 or more visitors returned to their homes.

Vis-President White announced that the next conference is to be in Northern California.

OIL WORKER BADLY HURT IN COLLISION

TWO MACHINES CRASH WHILE TRAVELING RAPIDLY NEAR HYNES.

By a "Times" Staff Correspondent

LONG BEACH, Feb. 18.—James E. Deaver of Bellerose in a critical condition; the result of an automobile crash between two machines on the boulevard between Hynes and Bellerose early this morning. Both machines were wrecked and burned, it was reported.

Driver of the other car, whose name was not learned by local police, escaped with minor injuries.

F. E. Beakley, 30 years of age, 311 Pacific avenue, Long Beach, surrendered to Long Beach police tonight and admitted he had been in the collision. Beakley is being held on a reckless driving charge pending the outcome of Deaver's injuries.

Deaver was driving to work in the Santa Fe oil field when his car and the other collided at high speed. Deaver was brought to the Seaside Hospital by passing motorists suffering from a severe head injury.

VAN NUTS TO CELEBRATE

(LOCAL CORRESPONDENCE)

VAN NUTS, Feb. 18.—The Van Nuts community is planning a double celebration for Friday. As a legal holiday patriotic observance will be given to the birthday of the Father of His Country. Incidentally that same date marks the passing by Van Nuts of its thirteenth milestone, as the town was founded February 23, 1911.

THOUSANDS STILL DRAWN TO SAN BERNARDINO TO BEND KNEE BEFORE KING ORANGE

(EXCLUSIVE DISPATCH)

SAN BERNARDINO, Feb. 18.—More thousands today worshipped at the throne of King Orange. Although the attendance at the exposition was far below Sunday's record-breaking throng, a merry, care-free crowd jammed the tents throughout the day.

Included in today's visitors were hundreds of citrus fruit growers of Southern California who were beckoned by the awards selecting the State's choicest fruits in all classes, announced Sunday.

Tomorrow will be Los Angeles and Orange county days. Show officials predicted thousands of visitors from Los Angeles and cities of that county. The Santa Monica Band will play two concerts during the day. The annual Citrus Institute conference of growers to discuss fruit culture and marketing will open at 3:30 o'clock at the municipal auditorium, where 3000 ranchers are expected to meet.

At the site of the Clark Dam, named for C. E. Clark, former engineer of the irrigation district, Engineer Carberry pointed out to the visiting realty men how the Colorado River broke through in 1905 and forced the dam. The dam was stopped through the co-operation of H. H. Mission Federation Says Report of Surveyor is Without Foundation

(EXCLUSIVE DISPATCH)

RIVERSIDE, Feb. 18.—Reports that an uprising of Indians on Monday, Feb. 18, is without foundation, according to officials of the Mission Federation here. Reports that the Indians were restless came from W. H. Thorne, government surveyor, engaged in surveying reservation lands.

Federation officials declare that such statements are "wholly false, untrue and malicious." That the Indians were restless, they said, was due to the fact that they were being surveyed by the government.

They also said that the Indians were being surveyed by the government.

They also said that the Indians were being surveyed by the government.

HUGE RESOURCES SHOWN

Deposits in Orange County Banks Total \$35,127,439

on Capitalization of \$3,080,100

(LOCAL CORRESPONDENCE)

ORANGE, Feb. 18.—The pessimist, if any exist in Orange county, received a solar-belt blow today, while the optimist, a familiar figure in the Southland, found additional cause for rejoicing.

That was indicated here today when the results of a county-wide bank survey, just completed by V. D. Johnson, secretary of the Orange Community Chamber of Commerce, were divulged, showing that Orange county banks had a total of \$35,127,439 in deposits, with deposits aggregating \$35,127,439.

These amounts, it was pointed out, were realized on a financial drop during the past year. The banks of Orange county, the survey revealed, closed the year of 1933 with total resources on December 31 of \$41,889,913.11, and with deposits aggregating \$35,127,439.

Furthermore, it was declared, the survey showed that the banks of Orange county had a total of \$35,127,439 in deposits, with deposits aggregating \$35,127,439.

WEEKLY COPPER MARKET REVIEW

Thirteen-Cent Price Fixed by Better Selling

December Production Makes New Output Record

Consumption Nearly Equals Supply; Surplus Grows

BY CHARLES F. WILLIS, Editor "Arizona Mining Journal"

Increased selling has been responsible for the increased price and firmness in copper during the past week and now quotations are firmly established at 13c for delivery up to and including the last part of April with 13 1/8 to 13 1/4 as current quotations. It has been felt that copper could not possibly stay below the 13c mark very much longer as the demand for metal has been such as to force it to be more nearly in line with other commodities.

If copper were in the proper price relation to other commodities it would be selling for better than 16c and its position below 13 has been an unnatural one, due to a combination of causes which will probably clear themselves to some extent.

The December production hung up a brand new record of 230,000,000 pounds, the fact that the last three months of 1933 showed a total production of 674,000,000 pounds at a rate of 2,246,666 pounds annually. This rate exceeds all previous records, even the big year of 1917, when American refineries turned out 2,432,000,000 pounds of copper and thought that they were hanging up a wonderful record for American production.

Exports and domestic shipments have been maintained in good fashion. Present consumption of copper in this country is larger than ever before. In the last quarter of 1933 domestic deliveries totaled 354,000,000 pounds. This is at an annual rate of 1,416,000,000 pounds, or about our pre-war productive capacity. Foreign shipments amounted to 288,000,000 pounds, an annual rate of 1,072,000,000 pounds.

In short, domestic and foreign shipments—a good index of consumption—totalled 642,000,000 pounds, or at the rate of 2,448,000,000 pounds yearly.

BALANCE OF TRADE
With production and consumption so close to a balance, the price of copper would ordinarily not stay several cents below average cost of production. But for months this anomaly has existed. In the table below is pictured the steady decline in copper prices for the last half of 1933, together with production and surplus stocks.

For the first time in eighteen months surplus stocks are above the 300,000,000 pound mark. This is not an unduly large amount of finished metal—barely over six weeks' consumption. But the copper market today is faced with a problem that seemingly is difficult of solution.

It is, of course, appreciated that production has about reached its high point and that any increases in consumption will tend to reduce the surplus and the continued low price of the metal will do much to encourage the use. It is also noted that the price has varied during the past six months with the difference between production and consumption. As long as a little more is being produced than is being consumed we may expect the price to stay down, but the difference is so slight that small increases in consumption reflect themselves upon the price immediately as has been seen during the past week.

Los Angeles consumes more shoe leather than many other cities in a comparative class. This is be-

DAILY TRADE TALK

Development of Community Centers; Trading in Shoes; Business Outlook; Bonds

BY CHAPIN HALL

The development of community centers is one of the interesting features about the growth of Los Angeles, and may be a factor of no little importance in solving the traffic problem.

There has been a tendency, during the past year, to build up the trade importance of these centers, not at the expense of the main arteries of the business heart of the city, but as relief or safety zones.

As a result the type of stores and the variety of stock carried has come to be more comprehensive than is often found in outlying districts formerly given over to small business and supporters more as conveniences than otherwise, and with just sufficient variety to "hide over" a customer until he, or more often she, could find time to make a trip into town.

Now elaborate emporiums of trade are located at many strategic points. These stores carry, in many instances, as full and complete a line of goods as the downtown, while the prices are not different from those available in the busier parts of trade.

These are not the "big box" stores or assembling places for a job lot of nondescript material, but imposing department or specialty shops, which often attract trade from far beyond the geographical confines contained within the "imaginary line" marking the limits of the city.

Such places are available with much greater ease, traffic conditions are not so strenuous and long rides of street cars are obviated. At the same time they are not real competitors with the big downtown stores, the turnover of which continues to grow with unvarying regularity.

It is becoming quite apparent that with the continued growth of the city, spreading out as it is in every direction, the streets as well as the places of business, are being "old town" are no longer sufficiently elastic to accommodate the increase which must inevitably follow the increase in population.

Eventually Los Angeles is destined to be a group of communities bound to each other by lines of communication, municipal citizenship, a general government, and civic pride. Each of these communities will be a power unto itself with its own stores, theaters, restaurants, agencies, intercommunication and ideals to be worked out in the independence of the central authority.

It is quite obvious that 1,000,000 people, doubling itself every ten years, can no longer be concentrated in a business and amusement way within nine or ten blocks on two or three streets. Fortunately there is plenty of room to spread, and that is exactly what Los Angeles is doing, for between Eagle Rock and San Pedro and between the Pacific Coast and the mountains, there are many miles.

Concurrent with this development is the increasing suburban growth of the city, with detached cities, such as Pasadena, Glendale, Alhambra, and Long Beach, each with its own life and its own business centers.

Los Angeles county towns are no longer dependent upon the metropolis for supplies or amusements.

There is no jealousy on the part of those established in what will always remain the trade hub of the metropolis, for there is complete realization that the future of the city lies in its expansion. The volume of purchasing and turnover in the city is increasing, and even the warehousing of supplies is gradually following the growth of the city.

It is considered that many of the "centers" are equivalent to a city of 100,000 population.

OUR SHOE TURNOVER
Los Angeles consumes more shoe leather than many other cities in a comparative class. This is be-

cause it is practically always walking weather here, and the number of days per year when it is necessary to encase one's feet in rubber are very few. Of course, we ride in autos to a greater extent than do the citizens of any other city, but just the same the shoe turnover is enormous, and therefore the subject of footwear is always timely.

Shoe dealers admit themselves baffled when it comes to predicting what the average Los Angeles family from father to flapper ought to wear in their feet from year to year. One merchant said yesterday that the manufacturers took every kind of leather and made it into every kind of shoe, and the retailers sold "Mother and daughter wear the same shoes today," he said, "and they wear anything that is pretty and that strikes their fancy. Grandmother does, too. The washerwoman wants to be shod about the same as the society woman for whom she works. Not so long ago 55 per cent of the women wore well shoes; now the percentage is 12. The shoe business has resulted in the rearrangement of shoe factories. The old high shoe is almost as obsolete as a hobble skirt. The new style for spring are of the rugged type, the semi-French is the style motif, with a wide, comfortable toe. The 'trick' leathers, however, heavy pressure, coming from speculative sources. The early forenoon's heavy buying by shorts and brokers with Liverpool connection sent the list up some 50 to 70 points. Drastic declines of stocks encouraged enormous selling by Wall Street houses and brokers for Southern and Western interests around midday and subsequently the list broke 150 to 160 points under its high of Saturday's close. Spot cotton which closed at 11.45 on Saturday was off 105 points at the close today.

COTTON PRICES SLIP AFTER EARLY GAINS
(EXCLUSIVE DISPATCH)
NEW YORK, Feb. 19.—Following an early advance based on higher cables, values broke sharply in the cotton market today, with liquidation rather general and particularly heavy pressure coming from speculative sources. The early forenoon's heavy buying by shorts and brokers with Liverpool connection sent the list up some 50 to 70 points. Drastic declines of stocks encouraged enormous selling by Wall Street houses and brokers for Southern and Western interests around midday and subsequently the list broke 150 to 160 points under its high of Saturday's close. Spot cotton which closed at 11.45 on Saturday was off 105 points at the close today.

CREDIT SITUATION
The Credit Clearinghouse weekly report shows an increase in the number of orders over the preceding week. An increase which has now been maintained for six consecutive weeks since the beginning of the year.

For the country as a whole this increase amounts to 1.2 per cent which all sections have contributed equally. The Pacific Coast where California and Washington have purchased less than last week although Oregon has purchased more.

The increase in the number of orders is reported from the Mountain section, S.E. The North agricultural section stands second, with percentage of 3.2. The Middle agricultural and East sections come next with 1.4 per cent. Collections continue fair, though slightly lower than a week ago.

BUSINESS OUTLOOK
The reviews of the week are interesting, but they do not throw much new light upon the situation. One of the most illuminating comments is that offered by Morgan, Livermore & Co., in relation to the foreign situation and the bond market.

"It is felt on all sides," according to this authority, "that the work of bringing the reparations question nearer to solution is really progressing. The drop in the value of the franc gave France a very severe scare, which went far deeper than government circles. A few weeks ago Paris banks noted an increased lack of confidence. This was instigated by demands from all sides for American currency. Some traps were set in Paris and the Providence hurried to turn francs into dollars. The thrifty Frenchman has been touched where it hurts. It is feared that there is a strong likelihood of his being forced to meet the situation as best he may. A realization of this necessity is inevitable, even by a nation which could exhibit the flagrant stupidity of the flag episode."

A settlement of the European turmoil will not be all bear and skittles for us. The first effect, of course, will be favorable, sentimentality aside. But there will be a secondary reaction upon commodity prices. We shall be let in for very real European competition. This will mean readjustment of our entire point of view. Certain products will be benefited. Others will have to adapt themselves to the changed program. The industrial situation will resolve itself into the same condition as that of the present. The distribution of goods will be selective one. Some industries will ultimately find it difficult to hold their own in the face of the lower production costs of France and Germany. On the other hand, probably chief among the industries to be helped will be copper. Greatly increased activity may be looked for there."

BOND MARKET
The distribution of new bond issues goes merrily on. The most serious strain upon investment disposition is in our midst—the \$150,000,000 Japanese loan. England's reported oversubscription of her share is encouraging. The immediate response here should be equally satisfactory. But that is only half the story. The job of putting the loan away in permanent hands will take much longer. It will no doubt act for a time as a brake on the entire securities market, but the situation is healthy—and ultimate success almost certain.

It is interesting to realize America's changed position in international finance. This is the first time the lion's share of such a loan has fallen to our portion.

OFFICIAL CAUTION Re Income Tax and Accounting

In order to protect the public against fraud and inefficiency the State of California, in common with all the other States in the United States, has passed laws regulating those practicing law, medicine, dentistry, accounting and some of the other professions. These laws are enforced by Commissions appointed by the Governor. The California State Board of Accountancy which has been functioning over twenty years, realizing that the State is at this time overrun with individuals and firms styling themselves as tax and accounting experts, who in many cases render inferior or faulty service to those who are misled into engaging them and against whom the public has absolutely no recourse for any professional breach, authorizes the following statement:

"To protect the public, the State of California in 1911 passed a law requiring those who desired to practice as 'expert' accountants to take an examination. The degree of Certified Public Accountant (C. P. A.) is conferred on successful candidates, and no other person is permitted to assume and use such title or to use any words, letters, or figures, to indicate that he is a Certified Public Accountant or expert of accounts."

"Certified Public Accountants are required to possess high educational qualifications. Investigation is made into their character prior to examination. Long service with a practicing Certified Public Accountant is required, and a searching technical examination is given, to pass which requires on the part of the normal applicant at least three years of intensive preparation."

"Certified Public Accountants should be qualified above all others to handle problems arising in connection with Federal and other taxes, including the correct preparation or return, adjustment of additional assessments and filing of claims for refund, as well as the auditing of accounts and the installation of office and cost accounting systems. They have passed an examination covering legal points involved and after adequate preparation have dedicated their careers to the practice of public accounting."

"Be as prudent, therefore, in selecting your accountant as you would be in selecting your doctor or your lawyer. Bear in mind that anyone, however little his skill may practice public accounting, but only those of proven professional attainment are permitted by the State to style themselves Certified Public Accountants. No others have this privilege."

This announcement is prompted by a desire to safeguard the interest of the business community in connection with the important matter of income tax and other accounting. It is in doubt as to the professional standing of any accountant, inasmuch as the California State Board of Accountancy, 1008 A. G. Bartlett Building, Los Angeles, or the California State Society of Certified Public Accountants, 1125 Commercial Building, Los Angeles, or of any banker in the community.

California State Society of Certified Public Accountants

Your Index to Profit

Your best index to the desirability of GILMORE Common Stock is the company's 20-year record of healthy growth.

Even with limited capital this business always has earned splendid profits—an original \$1000 invested has grown to more than \$100,000 solely from earnings.

Now, with additional capital to provide a sound expansion of this established business, the profits should be increased enormously.

You participate fully in all these profits as a GILMORE Stockholder; you receive also, the regular cash dividends paid every three months.

Inquire now! It does not obligate you to investigate.

Mail the coupon or call personally!

OIL NEWS

By Robert J. Fritchard

The Shell Company will not attempt to bring in its Rayne No. 1 in the Compton field at its present depth although the well showed a decided tendency to flow last Sunday, it is reported by officials of the company. The well is about 2950 feet deep, but will be drilled about 200 feet further into the sand before it is finally placed on production, it is said.

Last Sunday the well developed a tendency to flow and was allowed to run into the sump for three hours, officials report. During this time the production was about 65 barrels per hour, which is equivalent to 100 barrels per hour and 1600 barrels per acre.

The Union Oil Company is swabbing its Carson No. 1 at 1500 feet, it is reported, and is flowing emulsion with about 3 per cent oil, and some salt water. The hole is down 2957 feet.

Union Hellman No. 1 was drilled at 3775 yesterday, according to reports. Cords taken at 2750 and 2760 are said to have shown no indications although a sand was reported at 2755 feet.

Hellman No. 3 is drilling at 650 feet and Hellman No. 4 is springing.

On New Structure

If the Shell Company's wildcat well northwest of Signal Hill, a few hundred yards north of the Virginia Country Club, is successful, it will prove an entirely new structure in the immediate vicinity of Long Beach, according to officials of the company. The well is about 3500 feet deep, with no showings at present, officials report.

The Shell Company owns about 1500 acres in the vicinity of the Virginia Country Club, which is about one mile north of the United Oil Company's Bixby No. 1, which is the farthest north well of the Signal Hill field.

To Deepen Hole

The M. & H. Oil Company has not filed notice of abandonment of its wildcat well in the northwest extension of Santa Fe Springs field, according to officials of the State Mining Bureau. It was currently rumored, in spite of the published denial of President John McIlree, that the company intended to give up the attempt to get oil in that district. According to notice filed with the State Mining Bureau, the M. & H. drillers will make an attempt to deepen the well, and if this is not practicable, it may be abandoned, it is said.

Expect Heavy Gas

The Elk Hills Development Company is down 1250 feet in the standing cemented in its well adjoining the Elk Hills Naval Reserve No. 1 on the west, according to officials of the company. Operations are being made to cope with heavy gas pressure which is expected within the next few hundred feet, as a characteristic of wells in that district.

Get Good Showing

E. G. Lewis has encountered good oil showing in his well in the Hively Hills district, according to operators interested in that district. The well is in the far west well in the field, it is said, but encountered live showings at 230 feet, according to the report. Lewis holds a twenty acre tract, with an option of sixty acres more in this field, it is said.

Down 2350 Feet

The wildcat well being drilled by the Globe Petroleum Corporation on the Judd lease south of Huntington Beach, is drilling ahead at 2350 feet in encouraging indications, officials report.

Start Two Wells

Two new wells are to be started by the George F. Getty interests in the Torrance field, it is reported. The company has six wells now drilling in Torrance. The Getty No. 10 is cemented at 3500 feet, and is fishing for a lost string of tools.

The Magnolia Petroleum Syndicate

The Magnolia Petroleum Syndicate well, which is being drilled near Home Gardens, has reached a depth of 1620 feet. A solid mass of shell has been reached at this depth, states J. P. Cornish, who is in charge of the drilling operations.

HH Heavy Gas

Heavy gas pressure and live showings of oil have been encountered in the well of the Republic Hill Petroleum Corporation near the Montebello field, according to officials of the company. The showings were found at 1807 feet, at which depth the well will be cemented and a production test made, officials report. The company holds 130 acres on which the well is located, it is said.

(EXCLUSIVE DISPATCH)

CLEVELAND, Feb. 18.—(Exclusive Dispatch) Metal markets were active in Cleveland today. The market for steel was firm, with prices for various grades of steel ranging from \$10.00 to \$12.00 per ton. The market for copper was also firm, with prices for various grades of copper ranging from \$1.50 to \$2.00 per pound.

METAL QUOTATIONS

(BY A. P. NIGHT WIRE)

NEW YORK, Feb. 18.—(Exclusive Dispatch) Metal markets were active in New York today. The market for steel was firm, with prices for various grades of steel ranging from \$10.00 to \$12.00 per ton. The market for copper was also firm, with prices for various grades of copper ranging from \$1.50 to \$2.00 per pound.

LOS ANGELES EXCHANGE

Oil stocks manifested a sinking tendency again in yesterday's soggy market on the Los Angeles Stock Exchange. Selling pressure increased while there was little evidence of growing numbers on the side of the bull party, although the losses were held to small proportions.

General Petroleum slipped off 3-8 to 39 3-8 at the close and Union Oil Associates dropped 1/2 point to 82. Globe Petroleum fell from an opening of 8 cents to 7 at the finish, while U. S. Royalties, another member of the lower-priced group, advanced 1/4 cents to 20. Standard of California moved down 5-8 to 60 1-4 and Union of California was unchanged at 117.

Active buying of Richmond Consolidated was the only development of importance in the mining list, the stock jumping 2 cents to closing quotation of 14 1/2. Sunnyside sold at 4 and Telluride at 2 1/4 cents.

Los Angeles Investment yielded ground, largely in sympathy with the decline of the oil stocks, falling 1/2 cent to 1.96. Los Angeles Gas and Electric preferred sold up 1-4 to 40 1-4.

Bond prices exhibited a firmer tone. Los Angeles Gas 7s of 1931 advanced 1-4 at 103 3-4, and San Diego Gas and Electric 6s of 1939 advanced 1-4 to 98 1-4. The 5s of the same maturity moved up 1-4 to 83 1/2. San Joaquin series "C" 6s of 1930 sold up 1-4 to 98.

Following are the closing quotations and sales:

Official quotations as reported yesterday to E. F. Hutton & Co., members of the New York Stock Exchange, 643 South Spring street.

NEW YORK, Feb. 18.—Following are closing prices, sales, high and low quotations, net change today, and high and low for 1923:

[illegible]

[EXCLUSIVE DISPATCH]

[EXCLUSIVE DISPATCH]

NEW YORK, Feb. 18.—Today was an occasion of renewed decline in nearly all important markets; it was the occasion, also for a sudden revival of the notion that the crash of these markets the falling prices were a result of manipulation by evil-minded individuals. The day's 4 and 3-point declines on the stock exchange were ascribed at once by Wall Street to the group of speculating millionaires, wintering at Palm Beach. The fall of 5-7 3/4 points in the franc, the market was yet reached by it, was explained in great detail as consequence of the activity of German "bear selling," with the motive of weakening the franc. The further release of 1 cent a pound in the price of cotton was accompanied by a statement from the president of the American Cotton Association, that ways champion of higher prices for the product of his associates, and how tells us that the present decline in the market was due against the special interests," and that he is urging Congress "to pass immediately an act forbidding short selling of cotton, and to force the persons selling out the actual cotton."

There is doubtless this much of truth in all these theories, that the Palm Beach bears have been "going short on stocks," the German speculators, among others, going short of francs, and similar "bear" adventurers going to short of cotton. But the strategy of the market to experience if all these activities had not been invoked when market prices showed much reactionary tendency, and the market was in cotton and stocks and French exchange. At more or less distant intervals, the gossip of the financial world has been that they were doing today, into the conviction that but for these malicious conspirators there would have been no market crash. After a few weeks, however, when the every-day course of events had dulled the edge of superstition, it will always be admitted that the market was in a bad way, under circumstances of the situation. Usually, that discovery would be made when the bears had overdone their market and were scrambling to buy back what they had sold for future delivery.

Of today's movement on the stock exchange, it was reasonable to suppose that Friday's hysterical reaction would have been had not yet worn off. The peculiarity of this Washington investigation has been that whenever a market has been in a bad way and has announced that "now we have heard the worst," straightaway something unimagined appears to happen, and the market headlines. There was nothing

very alarming in the headlines today, but the market was plainly in a timid mood and therefore an easy subject for the bear sellin.

The days' declines were quite undisturbed by the heavy shares of steel-producing companies were as weak as stocks of oil enterprises. The market could not get over the heavy share of nerves on edge. Such fits are apt to wear themselves out in a relatively short time on Wall street.

Bears Rule The Pit
(BY A. P. NIGHT WIRE)

NEW YORK, Feb. 18.—Speculators on the close retained control of today's stock market by launching a series of attacks against speculative rallies and industrials which carried them down 1 to 3 points and forced some below the resistance point established in the drastic decline last Friday.

The bear attacks started after the week-end buying orders had been absorbed, opening prices displaying a rather firm tone.

Selling of stocks undoubtedly was influenced by the latest Washington oil developments, including the report that the United States had announced the decision of the House Republicans to boost the proposed maximum price rate in the United States to 10 to 15 percent, and the acute weakness of French and Belgian francs, which established new low records for foreign currencies.

Operators on the long side showed a disposition to suspend their operations pending more definite reports on the situation.

Exceptional
Investment
to You**

THE rapid growth of Southern California has made necessary the immediate expansion of the **COCA-COLA BOTTLING COMPANY OF LOS ANGELES**—owner of the exclusive **COCA-COLA** bottling franchise for this territory.

To provide additional plants, equipment, etc., the Company is now offering a limited issue of its capital stock—all common shares—at \$100 each.

Here is an exceptional opportunity for you to participate in the dependable profits of America's best selling beverage.

The unusual safety and profit offered you by these shares is best demonstrated by the fact that no stock is for sale in any other of the companies owning the exclusive COCA-COLA bottling franchises in the twenty-five leading cities of America.

In addition to COCA-COLA, the Company bottles and distributes exclusively Hires Root Beer and Ginger Ale, Cascade Ginger Ale, Delaware Punch, Cherry Blossom, and Howdy Orange Ade.

We shall be pleased to tell you more of the record of the COCA-COLA BOTTLING COMPANY OF LOS ANGELES, which has been in successful operation for over eight years. Send us your name and address below, or telephone 874-901.

STAR FOR
UNITED OIL

Reports Good
Production on
the Coast

United Oil Company, the largest oil company in the United States, has announced that it has secured a lease for 100,000 acres of land in the state of California, which it expects to develop into a large oil field. The company also reports that it has secured a lease for 100,000 acres of land in the state of Texas, which it expects to develop into a large oil field.

The company's production on the coast has been very good, and it expects to continue to increase its production in the future. The company also reports that it has secured a lease for 100,000 acres of land in the state of California, which it expects to develop into a large oil field.

FISHER'S WEEKLY INDEX

Prof. Irving Fisher's wholesale price index of 200 representative commodities and the relative purchasing power of money compared with monthly averages since January, the low in January, 1922, the peak of prices in May, 1920, and the base 100 in 1912, follow:

Index	Purchasing Power
1912	100
1920-May (peak of prices)	147
1922-January (low)	138
1923-January	145
1924-January	151.4
February, week ending February 16	152.2
February, week ending February 16	154.3

MATE FOR COOLIDGE PROPOSED

C. C. Chapman of Orange County Urged by Editor of Local Magazine

EXCLUSIVE DISPATCH
FULLERTON, Feb. 18.—The name of Charles C. Chapman, well-known Orange County capitalist, was advanced as a running mate for Calvin Coolidge, on the Republican ticket this year in an editorial appearing in the March issue of the Orange County Review, a monthly magazine, which came out of the press today.

The editorial, which was short, called attention to the fact that with William G. McAdoo as the possible Democratic standard bearer, the Republican ticket would need strength in the West, especially as it is possible that United States Senator Hiram Johnson may become an independent candidate.

The magazine has a wide circulation in Orange County and is devoted to advancing the interests of the county. The editor is J. B. Fitzpatrick, a retired Catholic priest, who was formerly a Congregational clergyman.

When an effort was made to reach Mr. Chapman, it was stated that he could not be reached. Mr. Chapman is a candidate for Presidential delegate-at-large from California, his name having been placed on the list of supporters from Southern California.

Friends of Mr. Chapman have taken the matter up and it is likely that steps will be taken to further his candidacy at a meeting which they are considering calling for the latter part of the week.

SHENANDOAH COMING

Mooring Mast for Huge Dirigible Ordered Built at San Diego

EXCLUSIVE DISPATCH
SAN DIEGO, Feb. 18.—The Navy dirigible Shenandoah is coming to San Diego and the West Coast this summer whether the proposed flight is held, according to word received from the North Island aviation station here.

The mast, which is being ordered built at San Diego, is for the construction of a huge mooring mast. The mast will be used for the mooring of the dirigible.

The mast will be used for the mooring of the dirigible. The mast will be used for the mooring of the dirigible.

Police Round Up Many Suspects

Irvy McCarthy is declared to have confessed the activities of the gang. Nellie McCarthy is his wife, also under arrest. Mrs. Emma Pryor and Mrs. Eva Taylor are being held during the investigation. Jimmie Blanton is being sought as one of the asserted bandit leaders.

CARLTON SUICIDE FOILED

Youth Sentenced for Life in Murder of Officer;
Slashes Wrist in County Jail

Sentenced to the penitentiary for life, Edward Carlton, youthful murderer, tried to inflict the death penalty on himself last night, when he slashed a vein in his arm at the County Jail.

Carlton was recently tried and convicted of the murder of Robert Magee, special police officer, who was shot and killed while trying to apprehend burglars in a house in the Wilshire district. He was convicted of murder, sent to San Quentin and since returned to face a charge of burglary, on which he was also convicted.

Obtaining a place of tin, the jailers believe, from the mess table yesterday, Carlton hid it until last night. While his cell-mates were absent for a few minutes he bared his arm and slashed the vein.

THREATENS SECOND TRIAL
Discovered soon after he made the suicide attempt, he was hurried to the jail hospital, where it was found the self-inflicted wound was not serious.

"Hope I do a better job next time," he muttered, according to the jailers, as his wound was bandaged.

Carlton was confined in Tank

deserted from his ship.

Grasping a tin cup they drew it across the cell bars, giving the signal to the jailer, Night Jailer Archie Miller responded, took in the situation at a glance and hurried Carlton to the jail hospital.

While Carlton was attempting to commit suicide, his young wife, Jeanne Carlton, who accompanied him in the attempted robbery and who was caught by detectives after she had sprained an ankle in a jump from the second story, was sleeping in the women's quarters upstairs in the jail. She has pleaded guilty to robbery and asked for probation.

Carlton was a former sailor and

was a member of the society here, the other to the police.

And so, when Miss Rankin arrived here yesterday, her reception committee, in addition to Mr. Boyd, contained a smiling woman and a husky gentleman with a forbidding countenance and a gold shield.

PAYS WAY BACK
Explanations followed. Miss Rankin produced a bundle of love letters. Boyd, likewise, produced a bundle of love letters.

But Boyd, it seems, forgot to tell Miss Rankin he was married. His wife filed suit for divorce some time ago and the interlocutory decree is granted, but he won't be a free man until next July.

He said he had planned to have Miss Rankin stay in Los Angeles until then and that they would be married. But they searched him; and in his pocket they found a wedding ring.

Miss Rankin is now under the wing of the Travelers' Aid Society. Boyd has furnished the money for her return to her mother's home on the Illinois farm. And social authorities are to be asked to look into the activities of the matrimonial agency.

NINE TAKEN IN \$200,000 HOLD-UP; TWO MISS NET

Ringleaders in Huge Gem Robbery of Provident Loan at Large; Police Report Confession

A dragnet operated by the Sheriff, the police and Burns detectives in investigation of the \$200,000 Provident Loan Association robbery on the 9th inst. has gathered in since last Saturday nine suspects, but the two principal actors in the drama are still at large, Chief Criminal Deputy Sheriff Wright announced last night.

The two missing men are Billy O'Connor of 5134 North Hollywood Drive, and Jimmy Blanton, of 1305 West Twenty-third avenue. They are believed to be somewhere between San Francisco and Los Angeles, provided they have not got wind of the arrests and fled.

These two, with Irvy "Red" McCarthy, are declared to have planned and executed the Provident Loan robbery. McCarthy is under arrest and has confessed, according to the officers.

The ninth arrest was made yesterday when R. B. Brightman of San Francisco called at O'Connor's home. He was held for investigation.

The officers taking part in the round-up were Capt. Harvey, chief of the sheriff's office robbery squad; Asst. Capt. Billy Cahill of the detective bureau; Deputy Sheriff, Thurgood, Peoples, Townsend, Brooks, Marty, Bob Jones, Montelone, Allen, Sweeney, Catlin, Stensland and Weir; Detective-Lieutenant Wallace and ten detective operatives of the William A. Burns International Detective Agency.

Starting with certain information the nature and the source of which were withheld, the officers first placed "stakeouts" at 5134 North Hollywood Drive, and, hence, it was declared, of "Billy" O'Connor, and at 1127 Orange street, an apartment-house at 11 p.m. Saturday the first raid was made, on the O'Connor home, where the officers say they found Jack O'Connor, Billy's brother, Billy O'Connor's wife and her 11-year-old son.

Jack O'Connor denied knowledge of his brother's whereabouts and activities, but the officers declared he resembled one of the men who took part in the Maywood bank robbery of January 8, and booked him at the County Jail on suspicion.

The watchers at the Orange-street address saw two men enter and decided to visit it also. There they found and arrested John L. Conroy of 4818 South Grammer Place and H. A. Herman of 5735 Budlong avenue, and held them at the City Jail for investigation. Later these two men proved to the satisfaction of authorities they had no connection whatever with the case and were released from custody. They also found a woman, whose name is withheld, and who was declared not to be connected with any crime.

These two raids were quickly

(Continued on Page 2, Column 1)

BANDIT IS CAUGHT QUICKLY

Dishwasher's Career of Crime Lasts but Half Hour After Holding up Branch Bank for \$1885

(Illustration on Picture Page)
A dishwasher's career as a bank bandit was halted half an hour after it was launched yesterday. DeGrove Bullock, the dishwasher, held up the Seventh and Central branch of the Commercial National Bank, led in a taxicab with \$1885 of stolen money in his pockets, with his victim and a shooting police officer pursuing him through crowded streets, and was captured in a rooming-house half an hour later.

Bullock is 22 years of age. In his story to a reporter for The Times, following his spectacular capture, he said he had been without funds and employment for several weeks. Occasionally, he had obtained work as a itinerant dishwasher. He had left his home in Utica, N.Y., to build his fortune in Los Angeles, but he only encountered disillusionment.

"I had a pretty nice tire repair-

ing business back home," he said. "But I went broke with it. I was in debt for \$200 and my father said the debt. I came West to make money, to pay back the money I owed my father."

The weeks dragged on, then Bullock, with only a few dollars left, decided to end his life. He read an advertisement in a magazine, answered it and enclosed a \$5 bill, and two weeks ago he received a cheap and small automatic pistol. At the moment when he planned to commit suicide, his courage failed him. He sought an easier way out of his difficulties.

He planned to rob a bank.

STUDIED BANK LAY-OUT
For two weeks, Bullock said, he surveyed the branch bank at Seventh street and Central avenue. Yesterday afternoon at 1 o'clock, he stepped into a taxicab at Seventh street and Broadway, driven by F. A. Bonham. He told Bonham to drive him to Seventh and Central, stopped in front of the bank, and entered.

Bullock walked up to a teller's window and laid a note on the counter in front of Assistant Manager M. Huggins. The bank employee read:

"My partner has you and the others covered. Come across quick with \$3000."

Huggins looked up and saw the mail-order pistol, then shoved a pile of currency through the wicket. Bullock ran from the bank, cramming the money into his pockets.

Unnatural History

The Opossum
Ouch, the Opossum! The Opossum and the Republican ticket interest the same clientele down South.

More people play Opossum than do Mah Jongg.

They figure it gets them farther, in the end.

The Opossum is a great climber, always stressing the importance of family trees.

He is frequently sent on supply expeditions to the African interior.

MAN OUSTED BY WOMEN JURORS

Three Assert Moses Neal Confirmed Convict in All Trials

Moses W. Neal will not sit as a juror in the case of G. Nathan, accused on four counts of obtaining money under false pretenses.

He was called along with others of the panel in Judge Keetch's department of Superior Court yesterday. When he and others were ready for examination, Mrs. Ida Cross Davis announced she would not sit on the same jury with him.

"He is a confirmed convict," she said. She recited one instance when, she asserted, Neal sat in the jury room and announced he intended to vote guilty and refused to discuss the case with the other jurors. He declared at that time, she charged, that the prisoner must be guilty or he wouldn't be there.

Mrs. Cross was backed by Mrs. Linnie C. Herrick and Mrs. Pearl Light, who will all sit on the jury while Neal awaits the action of the courts.

PINS FAITH ON MARCH FOR RAINS

Meteorologist Believes Coming Month May End Record-Breaking Drought

Less rain has fallen in this district since July 1, last, up to yesterday than in any similar period since the local weather station was established in 1877. Meteorologist Hershey announced yesterday.

The total rainfall in this period, he said, was 1.32 inches, the smallest amount ever recorded here. The situation is somewhat serious, Col. Hershey stated, but not especially alarming. The last of the present month may see good rains and if the month of March keeps up to schedule there should be a three to four-inch rainfall in that month. The average fall of rain for March since the station was established, Col. Hershey said, has been three inches. Twelve of the forty-six years since records have been kept have shown a rainfall of four inches in March.

Every precaution should be taken by the growers of Southern California to assure an adequate supply of water and to lay their plans accordingly, Col. Hershey said.

BAKER BACK IN COUNCIL

Councilman Baker, who has been recuperating at Palm Springs from his recent illness, resumed his duties yesterday in the City Council. Friends had placed a large bouquet of flowers on the Councilman's desk when he arrived.

ANGELINE BOOTH IN CITY

Commander of Salvation Army Here to Dedicate Home for Self-Supporting Girls

Angelina Booth, commander of the Salvation Army forces in the city, arrived in the city yesterday to participate in the ceremony of the dedication of the new Evangeline Home for self-supporting girls at West 6th street and Boylston avenue. The ceremony was held at the Salvation Army today.

Booth had considered the home for some time. It is a two-story building, with a kitchen, dining room, and living room. It is a very comfortable and well-furnished home.

Booth said she thought it was a very good idea. She said she had been thinking about it for some time and she was very glad to see it realized.

Booth said she was very glad to see it realized. She said she had been thinking about it for some time and she was very glad to see it realized.

HARBOR INQUIRY FIRST JURY JOB

County Body Impaneling Set for Next Tuesday

New Charge Alleges Losses in Wharf Leasing

Council Instructs Attorney to Assist Keyes

The 1924 county grand jury will be impaneled on next Tuesday, the 26th inst., and will immediately start a thorough investigation of the Harbor Department's leases to E. L. Dooney, Emil Cyker and others which have been attacked as detrimental to the city's best interests. Judge Shink yesterday announced that today he will draw thirty names from the 1900 to the grand jury wheel and will order those drawn to appear next Tuesday. At that time nineteen jurors will be selected and a foreman will be chosen.

At the request of Dist. Atty. Keyes the new grand jury's first session will be taken up with harbor leases.

A new charge was hurled at the Harbor Department yesterday by the Municipal League in a declaration that the city is losing \$10,000 yearly on account of a disadvantageous lease with the Wilmington Transportation Company, of which William Wright, Jr., is the principal owner.

GIVES REVENUE FIGURES

The league asserts that the lease entered into on December 12, 1919, for the use of berths No. 134 and 135, known as the Water-street wharf, was a fraction of the real value of the lease. The league estimates the lease value of the land to be \$50,000 and the improvements made by the city at \$180,000.

"If the city got 10 per cent on its actual investment in improvements alone," states the league, "or \$18,000, it would be getting only a fair going rate of interest, plus an inadequate depreciation allowance. But what the city actually does get, based on the returns for last year, is some \$10,000 less or only \$8,000."

The league states the annual revenue received by the city from the lease is as follows: Reserves for dockage, \$7200; garage charges at the rate of 19 cents per car per month, \$460; and the Wilmington Transportation Company's proportion of the cost to the city for keeping the place clean, \$390.

SEES CHANCE TO CANCEL

The league declares that the harbor board could cancel the thirty-year contract on one year's notice. This information was gained from the legal adviser of the board, it states.

The City Council yesterday received Dist. Atty. Keyes's letter announcing the inquiry into the harbor department to be under taken by the grand jury. President Workman, Councilman Al-lan, Musket and others endorsed the proposed action. It was finally decided that the matter be referred to Acting City Attorney Whitehead to obtain such information regarding harbor affairs from Councilmen as they might possess. Mr. Whitehead was also instructed to confer with Dist. Atty. Keyes in regard to effectively presenting such facts to the grand jury.

Mayor Cryer was reluctant to discuss harbor affairs yesterday out of deference to the District Attorney. He declared, however, that he would not hesitate to act quickly should the facts uncovered by the investigation by the District Attorney and the grand jury reveal irregularities.

MAYOR READY TO ASSIST

He yesterday sent to Dist. Atty. Keyes a letter declaring that, if corruption or dishonesty is found to exist as a result of the harbor board investigation, he would be glad to assist in punishing the guilty persons. The Mayor's letter was, in part, as follows:

"Dear Sir: Please allow me to express my interest in your statements and to say that if corrup-

NINE CAUGHT IN HUGE GEM THEFT

Ringleaders in Hold-up Fail to Walk Into Net

Police Report Confession in Provident Robbery

Eight Arrested in Round-up Here on Sunday

(Continued from First Page)

followed by a rush of nine heavily armed men into room 238 of the King Edward Hotel, 119 East Fifth street, where they arrested a man declared to be James "Buck" O'Neil and Mrs. Emma Pryor, who had registered, the officers say, as Mr. and Mrs. E. A. Pryor. O'Neil was taken to Pasadena and Mrs. Pryor to the County Jail, where she was accompanied by her dog.

The officers feared resistance on O'Neil's part, so they hired him to the door and then rushed it. They declared he had a 38-caliber front-end type revolver, fully loaded and cocked, on the dresser in the room, but half a dozen sawed-off shotguns presented to him at once caused him to surrender.

O'Neil refused to talk. He was booked on suspicion of robbery. Mrs. Pryor said she had met O'Neil last November, when he rented a house from her in Inglewood, and that she had later gone to live with him at her house in Inglewood. She said, according to the officers, he was frequently away without explanation. O'Neil introduced to her several men, she said, and the officers declare these men are known to be ex-convicts. Mrs. Pryor was booked for further investigation, though the officers said they had reason to believe she was merely a dupe.

YOUNG WOMAN JAILED

The raiders then went to a bungalow court at 2395 West Twenty-third avenue, which they said they learned was frequently visited by Jimmie Blanton. They found a young woman who said she was Mrs. Eva Taylor, but who they assert, has posed as Blanton's wife, some canned checks bearing the name of Blanton, and a 44-caliber pistol. Mrs. Taylor was sometimes known as "Daisy," according to the officers. She was taken to the County Jail on suspicion.

Still acting on their information, the officers then went to 1125 1/2 Queen Anne place, where they placed under arrest Irvy "Red" McCarty and his wife, Nellie McCarty.

Here they found the first tangible evidence of the Provident Loan robbery. In a handbag belonging to the officers say, to Mrs. McCarty, they found \$120 in gold notes and greenbacks found was some of the loot from the Provident Loan robbery. In a handbag belonging to the officers say, to Mrs. McCarty, they found \$120 in gold notes and greenbacks found was some of the loot from the Provident Loan robbery. In a handbag belonging to the officers say, to Mrs. McCarty, they found \$120 in gold notes and greenbacks found was some of the loot from the Provident Loan robbery.

McCarty, during the search of his home, began to babble information, the officers say, and when he was taken to the Sheriff's office made a statement which was reduced to writing and signed by him. In this he admitted taking part with Jimmy Blanton and Billy O'Connor in the robbery of the Provident Loan Association in the Chapman Building on the 8th inst. He declared he had met Blanton about three days before the robbery and O'Connor only half an hour before. The three walked from a hotel about a block and a half away to the Chapman Building, he said.

TELLS OF HOLD-UP

"When I went in," McCarty said in his confession, according to the officers, "Jim had them stick up and Bill told me what to do. He told me to tie the feet of one.

HARBOR OIL CLEAN-UP BEGUN

Tanker Captain Arrested on Charge That He Spilled Fluid Through Carelessness

The initial step in a campaign to clean up Los Angeles Harbor and to eliminate the fire menace created there by the dumping of bilge water and oil into the water was taken yesterday when Capt. W. E. Donovan of the Shipping Board tank steamer Halsey was arrested by Port Warden Terry. The skipper of the Halsey was charged with dumping oil into the water through careless loading of his vessel.

He was taken to the harbor jail and there deposited \$200 bail to insure his appearance for trial when he returns to Los Angeles. The case was continued because the Halsey cleared Los Angeles Harbor last night for New York with 30,000 barrels of oil.

It is charged by the port warden that seventy-five barrels of oil were allowed by Capt. Donovan to be dumped into the water.

I SAW THEM GRAB A WHOLE LOT OF PACKAGES

McCarty said he had received a small handful of gems and \$150 in cash and liberty bonds. The others, he said, were to take the plunder to San Francisco and sell it, and then give him part of the proceeds. He expected to get \$2000 to \$3000 more, he said.

After the robbery the trio went back to their hotel room. McCarty said, and made a partial division of it. Then McCarty left them and took a taxi home.

The officers say they learned from telegrams received at the Orange-street house that Blanton and O'Connor expected to return from San Francisco in an automobile on Sunday. It had previously been expected, he said, they would arrive by train. O'Connor had gone to the station Saturday morning to meet her husband, but he failed to arrive.

While the police were expecting the arrival from the north of O'Connor and Blanton, a telegram indicating that some of the plunder or may have been taken to Canada was received at the detective bureau. The provincial police of Regina, Sask., wired to Asst. Capt. McCullough that they had received with 160 diamond rings in his possession, who was trying to sell them. The wire asked that a full description of any jewelry in large amounts stolen recently be sent.

McCarty told the officers he had not been involved in any other crime and that he was willing to be incarcerated if he believed him.

HUSBAND CHARGED WITH BEING CRUEL

When Martin M. Henderson told her husband she felt like suing him for divorce, he told her he would attack her character and propound stories about her to the judge that would make the latter cry in sympathy for her. Mrs. Henderson asserted yesterday in a complaint for divorce against Daniel G. Henderson, operator of a string of eight-rooming houses, that her husband had been cruel to her for three months after their wedding, because she was ill in bed and could not prepare his dinner. Two days later, she said, he admitted to her he had been cruel to her with an other woman.

Mrs. Henderson is represented by Attorney I. R. Rubin.

STRANGLES ON BONE AND IS NEAR DEATH

A fish dinner last night almost cost the life of W. L. Price, 42 years of age, a clerk in Department Thirty of the Superior Court, living at 513 California street. A piece of bone caught in Mr. Price's throat and he nearly had strangled when he reached the Receiving Hospital, where he was operated on and removed the bone and the patient was revived.

HEATH TO STUDY TRAFFIC

At the request of the Traffic Commission and the suggestion of Chief Volmer, Capt. Cleveland Heath, head of the traffic bureau, will leave on the 18th inst. for a trip through eastern cities to study their systems of handling traffic. His itinerary includes St. Louis, Washington, New York, Boston, Cleveland and Detroit.

TO CONDUCT TESTS

Civil-service examinations for the positions of stenographer, typist, and forest and field clerk will be conducted here March 11, April 3 and May 13, according to an announcement yesterday at the office in the postoffice.

KLANSMEN ARE BARRED FROM JURY

Inability to Give Negro Slayer Suspect Fair Trial Is Plea of Defense

The undesirability of Ku Klux Klan members serving on a jury in a case involving a negro was demonstrated yesterday in Judge Burwell's court, where Lawrence M. Johnson, colored business man of Central avenue, went on trial for the second time on a charge of murdering Harry L. Harris, 33 years of age, last May.

The members of the venire, one of whom already was seated in the jury box, were excused when the court allowed Defense Attorney W. Joseph Ford to interrogate prospective jurors as to possible connection with the Klan.

When two of the veniremen admitted they were members of the secret organization, the court excused them from further attendance at the trial.

An attempt of the defense to exclude from the jury box talesmen who had been reared in the South failed when the court sustained the prosecution's examination bearing on that angle.

According to the State's theory, Johnson shot and killed Harris in the street near the intersection of Central and Main streets. Johnson is said to have quarreled with Harris, brother of the slain victim, and to have shot Harris. Johnson was first tried on the charge in Judge Avey's court last December, but after hearing the testimony for six weeks, the jury disagreed.

Wife's Dream of Happiness Fades Quickly

Love blided but a wee time in the home of Margaret J. Doran and Lonnie F. Doran, an assistant motion-picture director, according to a suit for divorce filed yesterday by Mrs. Doran.

Mrs. Doran asserted that in less than a month following their marriage in New York City her husband became abusive and neglected her, remaining away from home, she said, on the average of three or four times a week until a late hour of the night.

Last Thanksgiving Day Doran was declared to have told his wife that he was tired of married life and that he wanted his freedom and his marriage to her was a mistake.

Mrs. Doran said her husband left her the 5th inst. less than three months after their wedding, because she was ill in bed and could not prepare his dinner. Two days later, she said, he admitted to her he had been cruel to her with another woman.

Mrs. Doran is represented by Attorney I. R. Rubin.

Fine Array of Liquor Seized in Dry Arrest

The brass rail and polished mahogany were missing but everything else was there when Arthur M. Goodhue of 718 South Grand street was escorted up to the desk at the Police Station by Sergeant Childers and booked on the charge of violating the Wright Act.

Scored boxes like inventory of a pre-Volstead saloon were taken by Sergeant Childers and Officers Brown, Sims and R. T. Maxwell, of the Panama Republic, in the raid that led to Goodhue's arrest.

The arresting officers say they found the large stock of bonded liquor on shelves in Goodhue's apartment when they entered the place and made a search of the premises.

The assortment of liquor confiscated in Goodhue's home was one of the most complete ever assembled, Sergt. Childers said.

DONOR OF LAND TRACT SEEKS TO CLEAR TITLE

An action to effect reconveyance of title to land deeded the county several years ago by G. Allen Hancock for park purposes was filed yesterday in the Superior Court by Mr. Hancock. The land is located on Wilshire Boulevard between Los Angeles and Beverly and according to Raymond W. Stephens of the law firm of Stephens & Stephens, counsel for Mr. Hancock, the suit was to clear the title so that Mr. Hancock could reconvey the land to the county under conditions acceptable to the Board of Supervisors.

FIRE INVESTIGATED

Capt. Enos of the Fire Prevention Bureau and members of the police squad began investigation yesterday of a fire at the home of W. S. Larkins, 163 North Alexandria street, owned by B. J. Salsar. The fire, the police said, started on the front porch and spread to the house. Damage was about \$300.

PASSPORT RULE CHANGED

Second-class passengers visiting Panama will not require passports, Dr. Jose S. Saez, Consul of Panama, announced yesterday. Passports, he said, are required only of third-class or steerage passengers and Chinese, Syrians, Turks and Africans. The new regulations were adopted January 24.

ICE PLANT TO BE OPENED

The new factory and ice plant of the Globe Ice Cream Company will be formally opened for public inspection on March 1. The company will conduct formal public receptions each evening from March 1 to 6. The new plant is located at 230 West Jefferson street.

TO SHOW DEGREE WORK

Metropolitan chapter of the Order of De Molay will show the degree work of the order at James A. Garfield Lodge of Masons tomorrow night. The lodge meets at Washington and Arlington streets.

PLAN TRAFFIC CONFERENCE

Chicago Idea to be Considered at Meeting Set for Thursday by Council Committee

To plan a comprehensive transportation survey for Los Angeles and the adjacent metropolitan district the City Council's Public Utilities Committee, of which Councilman Allan is chairman, yesterday called a conference for Thursday afternoon. Invited to attend are representatives of railroad and street railway companies, members and engineers of the Board of Public Utilities, County Supervisors and representatives of the Los Angeles Traffic Commission.

The city of Chicago has just completed a survey of this kind, the work for which was in charge and Maj. R. F. Kelker, Jr., an engineer. This survey resulted in the Chicago plan showing transportation needs in subways, elevated lines and extensions of street car lines so that facilities could be built up systematically over a period of years. Chicago has now started to improve its transportation facilities in accordance with this plan.

BANK BANDIT IS CAUGHT QUICKLY

(Continued from First Page)

his coat pockets, darted into the taxi cab, and then, again, the side of the taxi driver and with threats of death ordered him to drive.

POLICEMAN ENTERS

The bank manager ran from the bank manager's office, drew his gun and fired at the taxi cab from a distance of fifty feet. The taxi cab was hit and the bandit was forced to jump out. Officer Corley pursued the bandit, firing as he ran. Bullock, the bandit, was caught at the door of the car.

Twice the chauffeur stopped the taxi. Bullock threatened to kill him. The taxi cab was hit and the bandit was forced to jump out. Officer Corley pursued the bandit, firing as he ran. Bullock, the bandit, was caught at the door of the car.

Below the surface irritation

this treatment attacks the root of skin disorders

DEEP down beneath the surface of your skin is the real source of that rash or itching irritation. Many salves and remedies fail even to reach it. The most strenuous treatment is often ineffective.

Yet there is a way that brings almost immediate relief.

In the under layers of the skin are cells clogged with poisonous germs, tissues swollen and inflamed. To reach these deep-seated causes of irritation—to cleanse the pores, kill germs, and start the skin again acting normally—physicians have for twenty-eight years been prescribing Resinol Ointment.

Thousands of people have wondered at the action of this stubborn skin remedy. It will, in many cases, clear the skin of the most stubborn eruptions, even the delicate skin of the face. Resinol Ointment is the only skin medicine that attacks the root of the disorder, and starts the skin again acting normally.

If you have been troubled with any of the following skin conditions, Resinol Ointment is the only skin medicine that attacks the root of the disorder, and starts the skin again acting normally.

Resinol Ointment is the only skin medicine that attacks the root of the disorder, and starts the skin again acting normally.

Miss La Marr in Temporary Legal Muddle

Barbara La Marr, film actress, became temporarily entangled in a legal squabble yesterday morning. A civil case involving her latest husband, Jack Daugherty, nearly took her into court.

It all began with a loan of \$85 which Daugherty had obtained from L. Schneider on March 18, last. It was stated.

For some reason the loan was not paid and Schneider took the case into court. Justice Hanby wanted Miss La Marr's testimony in the case. She was not present and the court issued a bench warrant for her arrest.

A short time later her attorney, R. D. Kniekerbocker, appeared in court to explain. He stated he had made arrangements with Marcus Clark, Schneider's attorney, to have the debt paid and had paid \$25 already on account. After hearing this Justice Hanby dismissed the bench warrant and took the whole matter under consideration.

Initial Public Talk Made by Chamber Head

William Lacy, president of the Los Angeles Chamber of Commerce, made his first public address since his election to office last night at the Criterion Theater in connection with the "Chamber of Commerce Week" program being conducted in connection with a membership drive.

Mr. Lacy spoke on the industrial advantages derived through membership in the local organization. At the conclusion of his talk, three films advertising Los Angeles and Southern California, preceded the regular program of the theater. Practically the entire membership of the board of directors of the Chamber of Commerce attended the opening of the feature which will remain at the theater all week.

NEGLECT CHARGED

Wife Says Mate Failed to Help Her and Their Child

Declaring her husband failed properly to provide for her and their child, despite the asserted fact that he earned an income of \$1000 a month, Mrs. Marguerite Hoeges yesterday filed suit for separate maintenance against Vinton A. Hoeges, operator of a mountain transportation service. The plaintiff stated her mate told her he liked to "travel around with class" and she further declared he insisted on sleeping in his office, although his place of business was said to be only three blocks distant from their home. She said he came home on the average of about once a week.

MINE FRAUD SUIT

Defendants' Demurrer Sustained in \$10,500 Action

A demurrer to the suit of Stanley P. Dunleavy and others against E. D. Tribolet was sustained yesterday in Judge Guerin's department of Superior Court. The plaintiff now must either amend their action or drop their suit to recover \$10,500 on account of a Mexican mining deal.

Dunleavy, J. W. Boaz and William Gross, according to the complaint, bought what they declared was represented to them as the famous La Trinidad mine, which was said to be producing profitably at that time. They learned afterward, the complaint recites, that the mine they bought was another than the one on which they say they thought they were making a profit.

JUVENILE COURT ACT HELD LEGAL

Habeas Corpus Writ Denied in Child Slaying

Jury Trial is Demanded by Boy's Attorney

Young Pasadena Slaying Are Returned to Schools

An attack on the constitutionality of the juvenile court act of 1915 failed yesterday when Judge Reeves denied a writ of habeas corpus in the case of Paul Daeleir, charged with the slaying of Arthur Martinez, 8 years of age, in a deserted factory building in Pasadena last December.

Daeleir, 14, and William Forrester, 15, were given a hearing in juvenile court in connection with the slaying and Judge Archibald ordered the boys committed to State institutions until they reach their majority, at which time it was ordered that they be returned to the court for further action in the case.

Attorneys for Daeleir sued out a writ of habeas corpus in the Second District Court of Appeals on the ground that anyone charged with a felony is entitled to a jury trial. The writ, which was made returnable yesterday before Judge Reeves, was dismissed on the opinion that the statute of limitations did not apply to a murder case and that Daeleir may be granted a jury trial at the time he is released from the control of juvenile court. Judge Reeves further

LUMBERMEN OPEN SESSION

Western Association Meeting Will Be Marked by Many Entertainment Features

The twenty-first annual convention of the Western Lumbermen's Association opened yesterday morning at the Biltmore Hotel for a session which will last until Saturday night.

More than 500 representative lumbermen from nine western States had registered yesterday. A program that includes banquets, dances, a visit to motion-picture studios and other points of interest has been arranged for the visitors.

An informal meeting of the directors of the association was held yesterday morning at the hotel. Today at 10 a. m., those attending the convention will meet at the Cinerama Roof ballroom, 422 West Sixth street, where all of the following sessions will be held for a formal meeting.

PRESIDENT TO SPEAK
O. A. Spear of Provo, Utah, president of the association, will address the meeting. His talk will be followed by various committee reports and an address by Douglas Malloch, poet and humorist, on "The Average Man."

Tuesday evening the lumbermen's "Hoo Hoo" society will have a big banquet and general celebration at the Ship Cafe in Venice, which will be followed by initiation of new members of the society at a time.

Following the hearing, Daeleir was again taken before Judge Archibald of juvenile court, where he was ordered committed to the Whittier State School until he reaches the age of 16, at which time he will be recommitted to the Preston State School at Ione.

OLIVE STREET FIGHT SETTLED

Compromise Agreement on Extension Reached

Part-Time School Will Be Saved by Project

Council Will Be Asked for Approval of Plan

Weeks of controversy between the city, property owners and the Board of Education over the extension of Olive street were brought to an apparent close last night when F. R. Felthaus, of the Board of Education, announced at a meeting of the board that a compromise had been agreed upon by all parties concerned.

Mr. Felthaus, a member of the board, had previously announced that the board would undertake negotiations with the property owners to save the part-time school located between Sixteenth and Seventeenth streets east of Grand avenue. As the original extension plan would have cut through the building, the board raised a vigorous protest, and the controversy started.

The object of the meeting is to promote a compromise plan. During the convention numerous reports on various lines will be given to the delegates. A piece for the 1934 convention will be decided upon at the convention.

Forrester, said to have been the accomplice of Daeleir in the slaying of Martinez, was sent to Ione Friday on his fifteenth birthday.

PROMOTE SALES
A large high school will leave the convention headquarters for a scenic trip through Southern California at 10 a. m., and 2 p. m., on Wednesday, Thursday and Friday.

FINE AUTO ARTERY
Under the new route laid down, the extension of Olive street will make a gradual bend to the east beginning at 14th street. Arriving at a point about two-thirds of the distance to Fourteenth street, it will straighten out and run due south to Twenty-first street. At this point it will bend east again until it joins Hill street at Twenty-third street.

As outlined by Mr. Felthaus, this extension will give the city one of the finest auto arteries in the city, and practically free of car tracks. Hill street from Twenty-third street and Olive north to Sixth street.

PROPERTY INTACT
It not only saves the school building, but the property intact, the board is offering only the width of the new street, for which loss it is to compensate the owners.

The plan, Mr. Felthaus stated, has received the support of the city's traffic experts and the Chamber of Commerce. Mr. Felthaus announced that he expected to be able to go before the City Council today with a petition bearing numerous signatures in support of the property owners involved in the adoption of the compromise plan.

Upon receiving the report, the board passed a vote of thanks to Mr. Felthaus for his work in the matter.

LEAVE OF ABSENCE
Supt. Dorsey was granted a three-weeks' leave of absence by the board last night to enable her to attend the National Education Association conference soon to open at Chicago.

In granting the leave the board pointed out that Mrs. Dorsey has been working for the school for many years and that her absence would be a great loss to the school.

DEATH DRIVER HELD FOR MANSLAUGHTER
Victim of Mishap Succumbs Two Days Later: Bail Set at \$5000

By a "Times" Staff Correspondent
"LONG BEACH, Feb. 18.—George E. Roll, 31 years of age, of 260 Third street, was arrested tonight on a warrant charging manslaughter in connection with the death of E. Dalton, 32½ East Tenth street.

It is charged that Roll's car struck Dalton last Tuesday in a safety zone at Tenth street and American avenue and that the victim died of his injuries later.

Bail for the accused man was set at \$5000.

TWO THOUSAND AT FRATERNITY BALL
Celebrating the first all-fraternity and all-sorority ball ever given on the Pacific Coast more than 1000 couples assembled at the Ambassador last night. During the evening beautiful silver trophy cups were presented by Miss Murray, noted scenic star, and Benny Leonard, lightweight ring champion. The ballroom was elaborately decorated with flowers. In charge of arrangements were Raymond L. Jones, Shirley Meserve, Dr. Jesse C. Martin, George Bartlett, Fulton Lane, R. D. Hancock and Paul J. Sexton.

BRANCH HEAD PROMOTED
W. S. Bell, manager of the Los Angeles branch of the Coca-Cola Company, has been appointed vice-president and general manager of the New England Coca-Cola Bottling Company, F. W. Patterson, who has also been connected with the Coca-Cola Company for several years, succeeds Bell as manager.

LODGE TO GIVE DANCE
Members of the Ladies' Loyal Orange Lodge, No. 146, will celebrate their birthday with a concert and dance to be given at the evening of the 23rd inst., at 327½ South Hill street. Friends, Americans and former residents of Ulster are invited.

THIEF SUSPECTS HELD
John Ortega, Frank Carral, Eddie Lopez and Joe Montez were arrested yesterday by Officers Gooden and Dickerson in an alleged stolen car. They were taken to Mission Road and Macy street on suspicion of grand larceny.

DUSE INTERVIEW BY PROXY

Famous Actress Represents the Unusual in Being Strongly Opposed to Publicity

BY ALMA WHITAKER

I had an interview with Eleanor Duse yesterday—strictly by proxy. Equipped as I am with no Italian and meagre French, I was grateful for the proxy. Especially as she is that delightful type of patrician English "maiden lady" who at once exudes charm and unapproachable authority. And this is Katherine Onslow, first cousin to the Earl of Onslow, who is traveling with Madame for pure love and devotion.

Katherine Onslow is most scrupulous in prefacing her remarks with "and Madame especially wishes me to tell you. . . ." And one would be in the Onslow bad graces forever if one misquoted.

NEVER GIVES INTERVIEWS
"The Duse," as Europe calls her, never gives interviews. Therefore, so-called interviews published on this side in New Orleans and Houston, Tex., are completely and indignantly repudiated. The pale blue Onslow eyes glitter with fury as those "interviews" are mentioned.

It was thirty years ago that Duse first came to America and she would enjoy nothing but her fame without publicity—especially the kind engendered by in-horror to her. Hence her hair is an open letter to the women of America pleading for personal privacy, explaining the importance of conserving vitality and security for her womanhood's sake—and without a slushy word about her art. And the women of that generation, and perhaps our own, have understood. Anyway the fame seems to have survived.

These hints were Miss Onslow told me Madame wished me to know. Duse uses no make-up of any kind—not even a dab of "powder." But, more amazing still, she resorts to no manner of beauty treatment—neither massage or facial. Her special diet, no formulated exercise. Madame believes in being perfectly natural in life as well as in art—and to let each age faithfully portray itself on her personality, her individuality. Any kind of hypocrisy is equally abhorrent to her. Hence her hair is a lovely white and her skin is clean and wholesome looking and alive as her years permit.

VITALITY BRISTLES
But she just bristles with vitality—and for the "fresh" of life in America is entirely appropriate. Miss Onslow confesses to finding it a bit too strenuous for her. This hint was Miss Onslow told me Madame wished me to know.

And, even accompanied by the

DATE FIXED FOR COUNTY BOND VOTE
Courthouse and Flood-Control Election Will Be Held May 6

It was tentatively decided yesterday at a conference at the Chamber of Commerce to hold the county flood control and courthouse bond elections on May 6, the local hospital, the first time.

was made yesterday in New York by Albert E. Smith, president. The word was received here by J. Stuart Blackton at the local level.

The new executive is the son of the late William E. Rock, who founded the company in 1897. Mr. Rock has been associated with the company since his father's death.

The body of the late Mr. Quinn was taken to Chicago by Mr. Smith, who went to New York following the funeral. Previously to being tendered the office Mr. Rock had not taken an active interest in the company since his father's death.

DR. JORDAN LAUDS AIM OF CONTEST
Stanford University Head Sees Serious Thought on Constitution Induced

Interest in the National Oratorical Contest on the Federal Constitution reaches its highest point. Not only among boys and girls in high schools, public, private and parochial, who have the opportunity of winning large prizes, and among teachers and school authorities who welcome the contest as an aid in the required study of the Constitution, but among men of the highest standard in the community is the interest expressed.

Dr. David Starr Jordan, president emeritus of Stanford University, looks upon the contest as certain to induce the young men and women to think seriously about the great document which is the cornerstone of the American government.

My Dear Sir: I am much interested in the proposed contest in the secondary schools as to the nature and function of the American Constitution. It cannot fail to induce young men and women to think seriously of the origin and purpose of this venerable document. Their studies will clarify their conceptions and show them the wisdom and patriotism of the men who drew it up in the face of many difficulties, internal and external.

Should it appear that defects still exist, their studies will help to point the way for their removal through intelligence and not at the fluctuating demands of emotionalism. Sincerely yours, DAVID STARR JORDAN.

George Washington was the direct descendant of "common people" but he had the blood of practically every medieval royal line.

POISONING PROVIDES MYSTERY
Inquiry Being Conducted Into Motive of Man in Hospital Care

In a critical condition from poisoning and unable to explain how or why it was taken, Durward Spann, 27 years of age, 4217 McKinney avenue, may be the victim of a mysterious poison plot, according to the police. He is suffering from lypso poisoning, according to Drs. Manning and Dorn of the Receiving Hospital, and may die.

Although conscious, Spann answered the hospital attendants in a blank fog and "Eh? What's that?" repeated several times in succession.

An investigation is being conducted by Officers Nash and McDonald of the University division.

KIWANIS LUNCHEON
The Kiwanis Club will contribute to the observance of Truth in Business and Advertising Week by having a feature of its luncheon tomorrow at the Biltmore a talk on "Truth in Business," by Bert Butterworth. An entertaining feature is promised by Bill Odum of the stunt committee.

Miyajima, one of the holy islands in the Japanese Archipelago, is dedicated to three goddesses and births of deities are not permitted there.

WHITE COLLARS

PLAYDOM
NEW LILLIAN GISH
"WHITE SISTER" REVEALS
ETHEREAL BEAUTY

By Edwin Schallert.
It is a new Lillian Gish that you will see at the Mission Theater during this and, no doubt, several succeeding weeks. For her first independent production, "The White Sister," which is showing there, is a deep and heart-rending revelation of her most individual self, and one that in many of its poignant and dramatically exquisite qualities, promises to be among the rarest of attractions of the season.

Ethereally associated always in the minds of the public, Miss Gish has recreated a character that in the impulse toward spirituality and idealism, strangely matches her personal charm, and she has here, above many of her familiar Griffith mannerisms and assumed a new and finer expression of her art in acting as a medieval nun who foregoes the world for the man she loved and then finally gave him up because of her vows.

"The White Sister" is, of course, in its source not of this generation. The novel by F. Marion Crawford must have been written all of twenty-five years ago, and the play in which Viola Allen appeared belongs to history and to the memories of the old-time theatergoers of the stage. As a consequence, the picture virtually comes to the screen without any frictions, but with something new, and spontaneously new, and in the treatment and the rich natural background of Italy itself, which is a gem of finer dramatic purpose.

Some of Italy's choicest beauties have been summoned for the setting. The gardens of Sorrento are the scene of love and romance, and Vesuvius is the inspiration for the climax which ventures into the fiery frenzy of spectacle. The eruption of the volcano that threatened the cities at its base, the mountain, the sea, the rushing waters of a broken reservoir in the hills—all these things are vividly depicted, and Henry King, who directed the picture, has really achieved a magnificent general effect.

Most of all, though, what Miss Gish's admirers will treasure are those rare glimpses of her most appealing and sensitive taste in acting. The parting from her lover is a pathetic thing, especially when you realize and feel, as she herself seems to feel, the futility of her departure.

Again there is the scene of his return as if from the dead and his attempt to make her give up the vows which she has taken. Nothing more exquisitely sustained can be imagined that the episode where she tells the beads of her rosary while his feverish and impassioned plea to her subsides, and he gradually and by degrees renounces his claim on her earthly love.

I do not look upon "The White Sister" as the type of production that will please generally, in all aspects, because it is woven of extremely delicate and poetical motifs, and at times moves very slowly with a somewhat stately grace. The sacrifice is essentially a tragic one, but it has been skillfully suggested that if it had not been made the results would have been disastrous to the girl and her love.

The supporting cast contains many names, but none that will shine any brighter than the new-comer, Ronald Colman. There is a Latin fire in his playing, but it is splendidly tempered.

J. J. Harwood has swung clear away from doing his merry screen roles and appears in the robes of a monsignor. He is an impressive figure in the part. Gall Kane is extremely good as the half-sister of the heroine, and the scene where she discards Angela's arms is one of the really affecting moments in the climax.

Charles Lane gives an excellent characterization of the Prince Chiaromonte, and many Italians who are vivid in their adaptability to their roles, appear in the general support.

"The White Sister" is indeed one of the finest achievements in the career of Lillian Gish. The premiere last night, which many prominent stars attended, gave token of how much admiration her interpretation has aroused in the professional circles.

Wide Variety of Offerings at Hillstreet

A bill that includes a little of the best of everything is offered Hillstreet patrons this week. Margaret Young heads the list with a group of songs more or less popular, and a character number that is quite out of the ordinary. Miss Young is familiar to many through her phonograph records, but her personal appearance is more than it could be through any mechanical medium. Her version of the 1924 song "The Humming Bird" is a masterpiece of a soft voice that is unusual for an artist of her type.

Two frankly humorous acts rank next in order. The first is a one-act playlet, "Married," by Porter Emerson Brown, in which Homer E. Mason and Margaret Young appear. This is a sort of a modification of the familiar bedroom farce idea, but is produced in a slightly serious and amusing manner. The second act is a comedy of the familiar bedroom farce idea, but is produced in a slightly serious and amusing manner.

Comedy of a senseless sort is offered by George Rockwell and Al Fox, who call themselves "Two Noble Nuts." Somebody ought to present them with a medal for no other reason than that, having a bunch of bananas in their act, they really do make a comedy of the familiar bedroom farce idea, but is produced in a slightly serious and amusing manner.

The Wilson Aubrey trio on the opening spot, going through some comedy gymnastic and wrestling stunts, and Harry Kane, history's greatest mentalist (the woods are full of them) complete the bill.

New Pantages Program Best in Long Time

One of the finest vaudeville programs presented at this theater in many months is being enthusiastically received at Pantages this week. Right from the very start of the entertainment, the acts ramble along in rapid-fire succession without a hitch in the fun formalities.

The Kafka and Stanley pair start the comedy with a series of limited of daring and endurance, offering several highly skilled performances in trapeze and rope work, and featuring a swing ride a la Fridolin and Rhoda in a novelty dance diversion show considerable skill and dexterity in their respective stunts. Both are to be commended in the interpretations of the various dances. The girl shows unusual ability in contortion work.

Teka, scheduled as a separate novelty, but in reality given by a member of the preceding act, is a mechanical contrivance which operates similar to a human being in the playing of musical instruments, singing, playing and rope tying. Its mechanism is the most mysterious part of Teka.

Rigoletto Brothers and Swanson Sisters make a good family of acrobats and interesting novelties are concerned. The brothers feature gymnastic and physical stunts, using a bit of juggling and comedy stunts as a side attraction. The girls have a pleasing program of contortion and rope work.

Billy Howard and Arthur Lewis are real comedians. That tells the story in a nutshell. Their "Do You Love Me" is crammed with original jokes and other fun.

DAUGHTER'S DOUBLE
FOOLS MR. TREADWAY

Charlotte Treadway never thought her father would be a "stage-a-come Johnny." But it seems that he is.

The actress's father, Charles A. Treadway of San Diego, is visiting her and came down to movie her after the matinee the other day.

In "Corned," which is playing at the Morocco, Charlotte is the double who resembles her good deal. The double, finishing a few minutes after the photographing of the scene, was surprised to hear and an elderly man rushed up with outstretched arms saying, "What a lovely girl, aren't you going to kiss me?"

The young lady turned around, startled and in turn startled the gentleman, who tried to explain that he was waiting for his daughter. Just then Miss Treadway came out and saved an otherwise embarrassing situation.

LYRIC CHARM IN
IVOUG CONCERT

Coloratura singing, with a new warmth of humanism and feeling, and colorful and picturesque highlights was introduced to responsive concertgoers last night at Philharmonic Auditorium. The songstress who performed the feat was Maria Ivogun, and she quite won the hearts of the audience not only with her voice, but with her personality, radiant and spontaneous, and her general style.

Miss Ivogun is Hungarian, and contrary to the popular belief, perhaps, that all artists of pyrotechnics are born in Italy, she proved her possession of a large resource of thrills and notes at the very top of the vocal tree. True, she is not as pure-toned as a true bel canto, not by any means, but her high notes are of a greater warmth, and that rather than technique alone—even though many of her tones are exquisite—is the real source of her "Aria."

Her program blended lighter numbers chiefly. The heaviest, indeed, were the two of Schubert, "Die Post" and "Faschella," and the "Faschella" was by Werner Josten. None of these touched the really great human depths, for she does not offer that sort of song.

What the audience liked were an arrangement of Kreisler's "Liebesfreud," where she showed a glorious rhythmic sense; "The Law with the Little Girl," a dear old English ballad, by Arne, and the "Blue Danube" waltz, of which she knows the true requirements.

To this music she added a "Faschella" by Caray-Wilson, which was one of her best renditions.

Handel, Bishop, Pergolesi numbers were skilfully and attractively formed the remainder, plus the encore, of which there were a number. Her accompanist, Seidler Winkler, was exceedingly skilled and responsive, and, needless to say, she herself is very pleasant and engaging to hear.

FLASHES
ORPHEUM DIVERTING
IT ISN'T A RAVE BUT MANY CLEVER ACTS

By Grace Kingsley.
The Orpheum is a grand refuge these hot days. And I'll guarantee that the bill will keep you awake. That is, unless you are very sleepy. The bill isn't a rave, but it suffices.

A clever and novel act is that of B. C. Hillman and Company, in Hillmanesque of 1923. It has distinction of talent, too.

I don't know which is which, but there is one blonde little girl, who is a charming singer, and there is a brunette little girl who has pecks of personality, while a third is a lovely little dancer. And there is a male trio, which sings beautifully.

The young ladies are Thelma Parker, Marguerite Malmat and Gladys Grey, and the men are Ira Warrall, Frank Mack and Frank Woods. Hillman, himself, ballyhoos and plays the piano, and his playing of popular airs as famous old numbers would do them, is entertaining.

The act is brilliant in spots, but somehow misses in climatic value. However, it is a good one.

The cutest boy in vaudeville is a girl. Her name is Jean Sothen. She shows a bunch of impersonations including a "Broadway Beau," and she proves herself an artist in all that she does.

Bert Hanlon has a good line of comedy gaff, the best bit being the olive oil.

There is an educated crowd along with Marlene, the clown, that deserves a paragraph all to himself. He catches balls in his head, plays whistles and does other uncrowly things. And, of course, the clown is a genius.

Newhoff and Phelps have a band and need it. They have an old act which would go to the storehouse. The lady has one of those built-in comedies.

The Three Whirlwinds, closing the bill, have the most remarkable skating act in vaudeville, I'm sure. They do some neat whirling and acrobatics on their skates that are a wild wow.

Eddie Kane and Jar Herman have a fat lot of material. Remaining over is Johnny Burke for another smashing hit.

CAPES AND SHAWLS

Below we present a letter from an Eastern customer, believing it may be of interest to you.

"It surely is true that the very nicest and most individual things are often hidden away from the 'beaten path.' Your Cheer Color Shop is one of my most delightful memories of California! For, I can tell you truly that never in all my travels have I seen such exquisite bits of feminine loveliness and home 'cheerups' as I found within your doors. The cape is the most superb thing I have ever seen."

We have other capes and shawls. A gentleman from London, England, who visited us last week, said of them: "These are always in and never out of fashion."

We invite you to inspect our Neary Todd-Lincoln (1842) Capes. Also our Hostess Coats, Sports Skirts, Petticoats, Lamp Shades and Rugs.

Concrete Roads Are Built to Ride On—Not to Slide On

When you come to a stretch of Concrete road you feel your car "take hold" on the firm, even surface.

You notice the sure, swift action of the brakes even in wet weather—how easy it is to steer.

You make your own comparisons with other road surfaces.

Then you realize why Concrete hard-surfaced roads are being built everywhere in response to motorists' needs.

One of the purposes of the Portland Cement Association is to enable everyone—whether he uses Concrete or has it used for him—to get the greatest value for his money.

We have a personal service to offer individuals and communities.

Let us know definitely what help you need. There is no obligation.

Our booklet No. 1 tells many interesting facts about Concrete roads. Ask us for your copy.

LINDSAY FIGHTS ENLARGED PARK

Sequoia National Area to be Discussed

Bert Deakin Chosen Head of Visalia Chamber

Porterville Postmastership Storm Center

EXCLUSIVE DISPATCH
LINDSAY, Feb. 18.—More opposition to the proposed enlargement of Sequoia National Park has come from Lindsay along with that from irrigators and Fresno county. Lindsay sportsmen and others declare it would be better if the lands proposed to be included are kept within the forest reserve. They say that cabin and camp sites could be more readily obtained. At a mass meeting here next Thursday evening at Lindsay High School, speakers from both sides will discuss the plan. The Lindsay Farm Bureau, of which Dr. D. M. Holstinger is president, is sponsoring the movement.

Cattlemen are also understood to be raising similar objections to those advanced a few years ago when the enlargement plan was first broached. Sportsmen are also said to be opposed to the idea of prohibiting hunting in Kern River Canyon.

KUME VICE-PRESIDENT
VISALIA, Feb. 18.—Following a banquet at Hotel Johnson, E. Bert Deakin was elected president of the Visalia Commercial Club at its twelfth annual meeting. T. C. Kume is vice-president, and P. E. Ritchie is president. The club is composed of Deakin, Kume, Frank Jackson, E. B. Waterman, and S. R. Greenfield.

Addresses were made by Mr. J. C. Wilson, Benjamin Ice Cream Company of Fresno; Marden Biola, president of the Visalia Chamber of Commerce; J. Sub Johnson; E. B. Waterman, and Guy W. Smith, field representative for the California Prune and Apricot Growers. A. D. Sweet, retiring president, presided.

Holidays which will be observed in the future are New Year's Day, Memorial Day, Independence Day, Labor Day, Armistice Day, Thanksgiving Day and Christmas Day.

COOLIDGE MAN STRONG
PORTERVILLE, Feb. 18.—Although Edward F. Halbert was recommended by Congressman H. E. Farber, Coolidge is a strong supporter of the Coolidge man. Halbert is a member of the City Council and secretary of the Elks. He has been active in civic affairs. His chief contestant, Edgar Lloyd, leading business man who supported strongly by the Coolidge partisans.

Halbert is a Johnson man, but also numbers some Coolidge men in his following.

SEWAGE PROBLEM
TULARE, Feb. 18.—Mayor W. M. Brown has called a meeting for tonight of representatives and committees of local civic bodies to discuss the sewer problem in Tulare. A definite plan of action to remedy the situation here will be outlined.

PHYSICIAN TO SPEAK
DINUBA, Feb. 18.—Dr. Charles E. Barker, official physician to Taft during his administration, will appear here in three lectures tomorrow, under auspices of the local Rotary Club. At noon, Dr. Barker will address the Rotarians. In the afternoon he will speak to women and girls on "A Mother's Responsibility to Her Daughter," and in the evening to men and boys on "A Father's Responsibility to His Son." He will also address the high-school students. The afternoon and evening will take place at the Woman's Clubhouse.

TREMBLING TRIO
Rob Autoists of Cash and Gems
REDONDO BEACH, Feb. 18.—A bandit trio, described by their victims as "three nervous fellows," whose revolver band was "trembling" up an automobile party on held up in the early this morning and escaped with money and jewels.

The youths, who were in an automobile, are believed also to be responsible for several hold-ups committed last night in Torrance.

ANAHEIM INDUSTRIAL DRIVE READY TO OPEN

EXCLUSIVE DISPATCH
ANAHEIM, Feb. 18.—With the election of officers and a board of directors by the Anaheim Community Holding Company, plans for the \$200,000 industrial fund campaign to open in Anaheim Wednesday morning are being whirled into shape. The program was completed for an industrial banquet Tuesday night, when more than 300 business and professional men gathered for a general discussion of the project and to receive information as to the aims and objects of the new corporation.

ROTARIANS ELECT EDITOR

LOCAL CORRESPONDENT
HUNTINGTON PARK, Feb. 18.—The Rotary Club of this city has elected J. A. Bowen, pioneer newspaper editor, to the vice-presidency of the club for the next quarter.

SMALLPOX STAMPED OUT
By a "Times" Staff Correspondent
VENICE, Feb. 18.—Smallpox, which has caused anxiety in the Bay district during the past few weeks, has been stamped out, according to information received from health officials here. No deaths were reported. The necessity of vaccination is urged.

SHRIEKS OF FEAR ROUT BOLD THIEF

Mother and Girl Scream as Intruder Enters Home and He Flees on Run

Screams of Mrs. D. W. Ferguson and her daughter, Lillian, frightened a burglar from their home at 538 Cahuenga, avenue last night before he had time to make away with any property. The daughter answered the doorbell and, greeted by a man who had masked his face with a handkerchief, she ran through the house screaming. Mrs. Ferguson added her voice to the alarm and together they brought neighbors to the scene.

In the meantime the burglar walked into the house and encountered Donald Ferguson, son of Mrs. Ferguson. The intruder menaced the youth with a pistol. While the man talked with young Ferguson his mask fell off, giving the youth a good view of his face. The cries of the girl and her mother by that time evidently had frightened the man and he hurriedly departed.

Police said about eight months ago burglars secured \$6000 in jewelry at the same address from Mr. and Mrs. Ferguson. The same method of entrance and the same command was given then as was heard last night, the police said. The police believe the intruder last night may have been the same one who robbed the Glassells.

Suspect Shot as He Dashes From Captors

John D. Haines, 30 years of age, was shot in the leg by Patrolman Good last night in the 700 block on West Pico when he attempted to escape from officers who had arrested him for suspicion of burglary. He was taken to the Receiving Hospital and later placed in the City Jail.

The suspect had been taken into custody by Officer Good and Detective Lieutenants Ziegler and Hickey. When the officers stopped to telephone for the patrol the prisoner broke away. Officer Ziegler emptied his gun at the ground and shouted to the man to stop. When the man continued his flight Officer Good shot him in the calf of his leg.

JANUARY BUSY MONTH FOR DRYDOCK COMPANY

Forty-one vessels in one firm's yards for overhauling

Continued winter activity at the plant of the Los Angeles Shipbuilding and Dry Dock Corporation was noted in the January job report for the yard just issued, showing forty-one different vessels of various types entering the yard for repairs.

Included among the larger jobs were those of the City of Los Angeles, which will be in the yard for several months undergoing a general installation of new engines and boilers; the coastwise liners California, undergoing periodic overhauling; the steamship Vancolite, docked for inspection of tail shafts, renewing zinc plates, examining anchor chains and straightening bilge keels; the steamship Santa Maria, dry-docked, scaled, painted, unshipped rudder, renewed pintle bushings, overhauled steering gear, renewed rivets in fore peak and hull, engine, boiler and piping repairs.

The steamship W. C. Teagle and the steamship Montebello likewise underwent extensive repairs to hull, bearings, boilers and engines. Besides these vessels the others entering the yard during the month were: Steamship El Clouta, steamship Calawall, yacht Goodwill, steamship San Francisco, steamship Culbulla, steamship Casiana, tug Peacock, steamship El Abeto, steamship Idaho, steamship Charles Pratt, steamship Standard, steamship La Placencia, steamship Centarus, steamship El Cedro, steamship Elverie, Wilmington Transportation Company's barge No. 2, steamship Zepot, steamship Independence, steamship La Habra, steamship Warwick, steamship Montpelier, steamship Craster Hall, steamship Samuel Q. Brown, steamship Andrew F. Luckenbach, steamship William L. Stead, steamship San Jeronimo, steamship Vaguero, steamship Jackson, steamship Australian and steamship Argon.

ROBBERY SUSPECTS FIGHT EXTRADITION

Five men held in Chicago in connection with the \$1,000,000 mail robbery here in 1929, yesterday fought execution of a removal warrant before United States Commissioner Glass, according to word from Chicago. The men are John Graham, Kenneth Anderson, Dr. Haldane Clemenson, Michael B. Howell and William J. Serpas, all of Chicago. The case was continued until tomorrow.

CHAMBER TO DISCUSS DISPOSAL OF SEWAGE

The Southwest Chamber of Commerce will hold a meeting Friday night at the Ninety-fifth street school. Sewage disposal in the county will be the chief matter discussed.

POLICE JUDGE TO REST

By a "Times" Staff Correspondent
SANTA MONICA, Feb. 18.—Police Judge M. R. King left yesterday for Kensington, near San Bernardino, where he will remain two weeks for his health. He has been under the care of physicians for several weeks. A complete rest was declared necessary. Justice W. R. Garrett will take care of the work in Judge King's department.

OREGONIAN RALLY

Former residents of Oregon will hold a rally at the Walker Auditorium next Saturday evening.

RUM CRAFT IS LIBELED FOR REPAIRS

Procedure Constitutes Unique Event in Ship Litigation

A suit arose yesterday when a vessel recently seized, and standing to be libeled for repairs. The vessel, the pure sealer Enal, was seized at Santa Monica by Federal prohibition agents a week ago, along with a consignment of liquors. Attorney John J. Monahan, proctor, has sought to libel the vessel in behalf of his clients, John Rados and Tony Rados, who profess a previous claim upon the craft for repairs. To date the proctor has been unable to obtain service on the libel and it has been argued that the vessel's liability to condemnation by the government supersedes other claims.

Another suit of maritime interest to be heard before Federal Judge James tomorrow, is that of Hanna Bloom against the Furness Withy Company over the death of her husband, Alton Bloom, aboard the British steamer Ocean Prince, November 4, 1922. It is the first admiralty cause of action for the death by negligence of a passenger on a vessel of the British flag before a jury on the Pacific Coast. Mr. Monahan is attorney for the plaintiff, while the defense is handled by Mannon & Green of San Francisco, and E. R. Young and H. R. Kelly are attorneys for the defendant.

The same attorneys will appear before Judge James today in the suit of Edward Skanes against the steamship Santa Paula for injuries he asserts he received aboard that vessel in Los Angeles Harbor October 26, 1923.

P. Blitt of the Harbor Machine Works also has placed a libel on the gasoline vessel Tolsty, also for repairs, with Mr. Monahan as proctor.

SECRET REVELRY LAID TO HUSBAND IN SUIT

WIFE CITES PARTIES GIVEN BY SPOUSE UNDER CLOAK OF BUSINESS

Declaring her husband told her he was going to Nevada on a business trip, but that she learned later he had stayed at a Hollywood residence and participated in revelry, Mrs. Margaret McLaughlin yesterday filed suit for separate maintenance against J. McLaughlin, said to be a wealthy mining man. Last July, Mrs. McLaughlin said, her husband insisted that she and the children leave the city, as he was going to be absent from town for a month. She complied with his asserted request, she said, but later learned he had stayed in Los Angeles and entertained guests at their home.

The wife listed community property valued at \$100,000 in her complaint, which was prepared by Attorneys Youngworth and McClean.

BODY FOUND IN GUTTER

The body of E. L. Lynch, 50 years of age, of 523 South Avenue 19, was found in the gutter at Avenue 21 and Main street yesterday. His body was taken to the Receiving Hospital, where physicians expressed the belief that death was due to natural causes.

73-Year-Old Gland Patient Sets Up Running Record

Onlookers were amazed to see a 73-year-old runner dash across the line winner of a 60-yard running race in the sensational time of 6 seconds, just 4.5 of a second short of the world's record. This unbelievable incident occurred at the annual field meet held at one of California's State Institutions.

It was another victory for Science, proving again that youthful vigor, stamina, ambition and power may be restored by reviving the vital glands of the body, for the winner was a gland patient.

Dr. Arnold Lorand says in his book, "Old Age Deferred," is speaking of the glands: "We must insist upon the reinforcement of their functions, if changed by age or disease, by means of extracts obtained from the similar glands of healthy young animals."

Science has now prepared such a treatment. In convenient tablet form—Glandogen—which combines the healthy glands of young animals with other efficacious ingredients. Thousands of keen-eyed vigorous men and women are today taking Glandogen. It is prepared in two forms—one for women and one for men.

Glandogen can be procured at Chambers Drug Co., First and Broadway; Henderson Brothers Drug Co., 3rd and Main; Blake-Chambers Drug Co., 3th and Los Angeles and 1th and San Pedro; in Long Beach at Oxford Drug Co., 211 Pine Ave.; in San Pedro, Wilmington and Torrance at Beacon Drug Stores. Mail orders give prompt attention.

Avoid Gas After Eating

Bloating and distention of the abdomen, drowsiness after eating, pressure and pain around the heart, hands and feet cold and numb, nervousness, are the more common symptoms of this trouble—gas.

All is due to the fermentation of food in the stomach.

Physicians state that the best absorbent they have found for this foul gas is Hyland's No. 10 Gastric. This little white tablet will relieve the pain and distress that come after eating.

If people would only give some attention to their diet and carry these wonderful tablets for emergency use they would quickly find that many of the ailments and symptoms would permanently disappear.

50c at all druggists and Standard Homeopathic Co., 216 South Broadway, Los Angeles, or Halted Parcel Post for 10 cents. Ask for your booklet—"What Shall I Eat?"—It's Free.—Advertisement.
